## General Walkout In The San Francisco Section Seems To Be Collapsing

Wheels of Business in Metropolitan Area Moved Again Today Under Relaxing Brakes of a General Strike.

### VOTE TONIGHT

Announce Vote Will Be Taken at Oakland Tonight To End the Walkout.

By NORMAN BELL  
San Francisco, July 19 (AP)—Wheels of business in San Francisco metropolitan area moved again today under relaxing brakes of a general strike.

Under pressure from Federal, state and city governments, the general walkout gave indications of collapsing rapidly.

The strike "strategy" committee of Alameda county, in which 500,000 of the area's 1,300,000 residents reside, announced a vote would be taken at Oakland tonight on a proposal to end the walkout.

Resumption of Eastbay (Alameda county) transportation service controlled by the Key Route System, including its ferryboats on the bay, employing a total of 900 men, was announced for tomorrow by the carmen's strike committee after a meeting with officials of the company.

The Pacific Coast maritime strike, key issue of the mass walkout in San Francisco Bay cities, remained a problem which officials admitted still was loaded with dynamite.

Hugh Johnson, NRA administrator and spokesman for the Federal maritime dispute board here, conferred with labor leaders last night. Though no one would speak for publication after the conference, it was indicated some of the union leaders had expressed willingness to propose an end to the walkout before the general strike committee.

Mayor Angelo J. Rossi announced a pledge to run every Communist agitator out of San Francisco.

The mayor also advised the committee, the announcement said, that he would refuse to recognize the right of any one, including unions, to issue "permits" to merchants to do their business.

### Proposal Announced

The proposal to end the strike in the Eastbay cities of Oakland, Alameda and Berkeley (Alameda county) was announced by William H. Spooner, secretary of the Central Labor Council. The question to be voted on, he said, will be for return of all union members to work tomorrow.

The entire union labor force in the bay area numbers nearly 100,000. Approximately 80,000, it was estimated, joined actively in the mass walkout which started here Monday and spread to the Eastbay Tuesday. Estimates now are that approximately 20,000 already have returned to work under strike condition permits.

An order from the general strike committee approving the reopening of all union restaurants automatically returned to work from 2,000 to 5,000 culinary workers last night. Some 1,000 retail butchers previously had picked up knives and cleavers again. Hundreds of teamsters were operating trucks under union "permits."

### Predict Opening of Waterfront

Predictions that the National Guard-Patrolled waterfront will be opened soon were made by R. Stanley Decker of the Dollar Steamboat Lines and William P. Roth, president of the Matson Navigation Company, who said all their vessels had been notified to resume scheduled calls here.

Efforts of the San Francisco Industrial Association to open the port with non-union dock workers led to the "bloody Thursday" battle of July 9 in which 34 persons fell wounded under police gunfire, two of them fatally.

Raiders by asserted "vigilante" groups on alleged radical headquarters continued last night as men armed with clubs smashed and battered their way into the international workers of the world meeting place and a club, police said was a Communist "hangout."

Some 300 alleged Communists rounded up in police raids pleaded not guilty to vagrancy charges and were held for jury trial, at their demand, under \$1,000 bail each. District Attorney Matthew Brady, who appeared as prosecutor, declared he did not intend to become "hysterical" over asserted Communist activities and that "freedom of speech" should be respected as long as it did not advocate violence and overthrow of the government by force.

The national guardsmen, numbering about 4,500, will remain on the waterfront and in the eastbay until Acting Governor Frank F. Merriam orders their removal. Major General David P. Barrows said.

### Treasury Receipts

Washington, July 19 (AP)—The position of the treasury July 17 was: Receipts, \$9,674,000.54; expenditures, \$9,676,059.51; balance, \$2,007,940.03. Customs receipts for the month \$10,460,297.82. Receipts for the fiscal year \$148,643,428.41; expenditures, \$299,354,428.44 (including \$127,877,877.95 of emergency expenditures); excess of expenditures, \$150,714,130.62. Aid assets, \$7,592,452,595.05.

## Republicans And Democrats Set County Convention Dates

Republicans Will Meet Saturday, August 4, and Democrats on Wednesday, August 8—Both Conventions Will Be Held In Municipal Auditorium—Candidates Will Be Named For Five Offices.

The two major parties have set the dates for their county conventions in Ulster county, to name candidates to be voted for at the election in November.

Both conventions this year will be held in the new Municipal Auditorium. The Republicans are to meet at 11 a. m. on Saturday, August 4, and the Democratic convention has been called for Wednesday, August 8.

Candidates will be named for: Member of Congress for the 27th District. State Senator for the 29th District.

Member of Assembly. County Treasurer. Coroner. The Republicans will name 15 delegates and 15 alternates to attend the state convention to be held after called. They will also name two members of the Republican state committee.

Republicans in the various election districts of the county will meet in caucus Saturday evening, July 28, to choose three delegates from each district to represent the district in the county convention.

August 21 is the last day for filing designating petitions. The official state primaries will be held on September 13.

## U.P.A. Expects 5,000 At Picnic, Field Day

Hasbrouck Park to be Scene of Gala Affair Next Tuesday When Provisioners Play Host to all Kingstons.

Far exceeding original estimates concerning the attendance at the Ulster County Provisioners Association picnic and field day next Tuesday at Hasbrouck Park, Ben Suskind, representing the association, today said that more than 5,000 young folks and grown-ups would be on hand for the elaborate program to be presented. So far more than 20,000 refreshment tickets have been given out, but he was unable to estimate the exact number who would actually attend.

The provisioners are making detailed plans for the occasion, and are closing their stores at noon on the day of the affair, so that they together with their wives and employees will be able to handle the large crowds expected. Refreshments for all will be served free, and between 75 and 80 prizes have been provided for the athletic contests for young and old, under the direction of N. H. Fuller of the local Y. M. C. A.

That the "inner man" will be well treated by the provisioners is evidenced by the list of provisions which are being donated by local concerns, including 750 to 1,000 pounds of "hot dogs," 1,000 quarts of milk, 8,000 sandwich rolls, 50 gallons of ice cream, and a number of other goodies and satisfying eats.

Mr. Suskind said today that the only way for the provisioners to determine the amount of food necessary for the affair was to have every one who intends to go turn in his or her registration ticket at once, otherwise a shortage of food is likely to occur. The provision dealers intend to feed everyone, but if a shortage does occur the dealers say it will be the fault of those who attend and did not announce their coming.

Everyone is welcome to the picnic and athletic meet and the hosts are expecting a gala day filled with good clean fun. The event will become an annual affair, Mr. Suskind said, and he intends to have larger and better prizes each year, in an endeavor to train the athletic prowess of the youth of the county.

"We want everyone to come to the picnic," said Mr. Suskind, "and we want to feed them all, but to determine just how much food is needed it will be necessary for all to register. The ships may be obtained from any U. P. A. grocer and they should be signed and returned as soon as possible. The provisioners are looking forward to a big day, and they expect to provide a treat for Kingstonsians that will long be remembered."

## Advance Restaurant Was Burglarized

Entered Early This Morning and \$45.85 in Cash Stolen In Addition To a Quantity of Cigarettes.

When George Athanis, chef at the Advance Restaurant, came on duty Wednesday morning, he found the rear door of the restaurant had been broken open. He notified Miss Fahr, the cashier, who upon investigation found that the place had been entered during the early morning hours and \$45.85 in cash stolen, in addition to a quantity of cigarettes. The thief or thieves had also stolen a mustard pie, part of which had been left lying by the cashier's desk. Miss Fahr notified the police.

The robbery took place after one o'clock that morning, at which time George Kuhn, proprietor of the restaurant, counted the cash and closed up. The money had been placed in a drawer outside the cash register and whoever took it must either have been acquainted with the procedure followed or else have been watching from outside. Mr. Kuhn thought he heard a noise in the hallway of the main entrance to the Advance building, just before he left for home, but did not investigate. It is thought that the thief was probably waiting there at the time, possibly watching the closing up operations.

### Writings Are Banned

Berlin, July 19 (AP)—All novels and other literature by Upton Sinclair, widely known American author, were ordered confiscated and banned today in Prussia.

## Olson Takes Possession Of Governor's Offices, Seek Exemption From Locks Law Chambers Regulation By Board

Acting Governor, Who is in Clash With Langer, Ousted by Supreme Court, Establishes an Early Morning Camp.

### REVOKES CALL

Legislature Threatens Olson and Supreme Court Judges With Impeachment.

Bismarck, N. D., July 19 (AP)—Gov. Ole H. Olson, acting governor, took physical possession of the chief executive's office at 10 a. m. Central Standard time today.

He merely walked into the office, accompanied by two friends. National Guardsmen at the same time were posted in the corridors of the state house. There was no disturbance.

Olson immediately posted a proclamation in the corridors of the state house revoking a special session of the state legislature, called by William Langer, ousted governor. Doors of the two assemblies were locked.

National Guardsmen were posted in the corridors at the time Olson appeared at 10 a. m.

Adjutant General Earle Sarles, who announced he would stand behind Olson, was in his offices down stairs at the time.

Legislators favoring Langer had indicated they would attempt wholesale impeachment of state officers unfriendly to the ousted governor, and that this might include the four judges of the state supreme court who ruled Tuesday night that Langer's conviction of a felony in the federal district court disqualified him from holding office.

The House, where impeachment proceedings would originate, was controlled by Langer supporters by more than a two-thirds majority, while in the Senate the margin was a few votes short of two thirds.

### Reports of Mob Violence

Reports were heard of possible mob violence, but on the surface all was calm. Rumors were current that Langer partisans were concentrating in various sections of the state ready to march on Bismarck to rally around Langer.

Langer after the court ousted him, declared martial law. Olson revoked the command yesterday.

Legislators were in the city to convene pursuant to the call issued twice by Langer, and revoked by Olson.

With a majority of the legislators favorable to Langer, it was uncertain whether they would attempt to assemble in quarters other than the Capitol.

John Husby, Commissioner of Agriculture and one of the officials who revolted from Langer's leadership, was in the Governor's office when Olson entered. S. A. Olness, insurance commissioner aligned with the Olson group, came later.

Two of Langer's stenographers were at work when Olson took possession of the office. One was busy engaged in work left by Langer who has been in seclusion from the time the State Supreme Court ousted him on the ground that his conviction of a felony bars him from serving in office.

The Governor's quarters appeared deserted, and Langer's personal files had been removed. Desks had been cleared of all papers.

Guardsmen were centered in the corridors, and some outside the building.

Six telegrams, addressed to Langer, came into the office shortly after Olson entered.

One of the telegrams came from R. H. Lynch, Republican county central committee chairman of Divide county, who advised Langer: "Stand by your guns. One thousand helpers in Divide county. If you need help call."

### Olson in Conference

Olson went into an informal conference with political friends who began to gather as word went out that he had taken possession of the office.

Before he entered, Assistant Adj. Gen. H. A. Brocopp notified Langer's office staff that Olson would appear soon and to give him their cooperation.

Olson's first official act after installing himself in the executive offices was a command to the state board of administration, custodian of the state capitol building, to keep doors of the legislative assemblies locked.

### Awarded Merit Cross

Madrid, July 19 (AP)—The Spanish cabinet today awarded the Grand Cross of the Order of Naval Merit, with a white ribbon, to Henry Roosevelt, assistant secretary of the United States navy.

## Airline Officials Say Coroner's Asphyxiation Theory Impossible

Colonel McEntee To Head Crusaders In 27th District

### WORK ASSIGNED

Organization of Commission Has Begun To Take on More of a Definite Form.

Washington, July 19 (AP)—Several small stock exchanges are seeking exemption from regulation by the securities and exchange commission.

This became known today as Commissioner George C. Matthews was designated to supervise the corporate reporting division and Commissioner Ferdinand Pecora the stock trading division.

The specific jobs of other commissioners had not been decided, but it seemed likely they would have a relatively free range since other sections of the work are more or less definite.

The problem of dealing with the small stock exchanges has not been solved, and officials see it as one of the most difficult.

Organization of the commission has begun to take on more definite form. The selection of Pecora to head the stock trading division is recognition of what might be called his detective work in the senate stock market investigation. David Saperstein, who was one of Pecora's principal aids in the investigation, will be the active under-official in charge of this work.

The commission began work today on the problem of what information should be asked of exchanges in registering them with the commission, as required to be done on October 1. A group of accountants from New York has been called in to confer on the problem.

### MAN DIES AFTER FIGHT

#### AND ASSAILANT IS HELD

New London, Conn., July 19 (AP)—The investigation into the death of Thomas Young, 50-year-old stableman, who police said was injured in a fight, was shifted today to Riverhead, N. Y.

Young died in a hospital here yesterday. Police said on Saturday he participated in a fight with a man named Weekly at a picnic at Fishers Island, N. Y.

Justice of the Peace R. C. Shanklin of Fishers Island, notified of Young's death, said he had turned the case over to the district attorney at Riverhead. He reported that Weekly was being held there pending an investigation.

Police said Young was kicked in the abdomen and suffered an internal hemorrhage after he had been felled by a blow in the face. He was admitted to the hospital Tuesday when peritonitis developed. Young's body was to be sent to relatives at Irvington, N. Y.

### BALDWIN GIVES OUT

#### BRITISH AIR PROGRAM

London, July 19 (AP)—Stanley Baldwin, Lord President of the Council, informed the House of Commons today that the British government has decided on a program of increasing its air force by 41 squadrons during the next five years.

Of the squadrons, he said 23 would be allotted for home defense, raising the existing 42 squadrons at home to a total of 65. The remaining squadrons would be for service with the fleet as an air arm or for use abroad.

"The rate at which this program can be carried out within the five years," said Baldwin, "must depend upon various considerations including finance, which I cannot specify now."

### NORLESSE OBLIGE

#### King George Frees Man Who Threw Bottle at Him Saturday

Edinburgh, July 19 (AP)—A man who hurled a bottle or large glass at King George and Queen Mary was discharged today at a police court hearing and it was believed, had the king to thank for it.

The object was thrown Saturday as their majesties were motoring to Edinburgh for Harthill. It struck the pavement a few yards behind the royal car.

Police immediately seized the man and it was understood King George expressed a wish that he be freed.

### Our Growing Population

The following births have been reported to the board of health: Mr. and Mrs. Eldorado Darton, 1 son, Frederick Highland, at the Kingston Hospital, July 14. Dr. John B. Krom was the attending physician. Mr. and Mrs. John Eldert Simmons of Linderman avenue, a daughter, Marion Elizabeth, at the Kingston Hospital, July 14. Dr. John B. Krom was the attending physician. Mr. and Mrs. George B. Macdonald of R. F. D. Kingston, a daughter, Araminta Louise, at the Kingston Hospital, July 15. Dr. K. H. LeFever was the attending physician.

### Weber Fined \$15

At an adjourned hearing in police court this morning, Fred Weber of 45 Chambers street, was fined \$15 on a charge of disorderly conduct for which he was arrested Tuesday night by Patrolman William Hess.

## Two American Airways Officials Testify At Inquest In Plane Crash

Statement That the Ship Apparently Had Flown "Dead Stick" From Newburgh Also Branded As Impossible.

### INQUEST CLOSED

A Report of the Findings Will Be Submitted Later by Coroner H. B. Humiston.

Two officials from the American Airways, Inc. appeared voluntarily before Coroner Howard B. Humiston and gave testimony today in relation to the crash of the luxury liner on Montauk mountain on June 9 when four passengers of the ship and three of the crew were killed.

Earl F. Ward, general superintendent of the line, himself a pilot, and a co-pilot, testified as well as Theodore Schmidt, manager of the New York sector, who dispatched the ill-fated airliner on its course.

Both of the officials stated that the theory of Coroner Bourke that the pilot, co-pilot and passengers were asphyxiated by gas fumes from the motors was impossible. They described the two methods of ventilation to the cabin where the passengers were and also stated that the pilot's compartment was an almost airtight sliding door which divided the ship. In summer the pilots always fly with windows open and they could not have been overcome by fumes.

A second spectacular statement of Dr. Bourke, that the ship apparently had flown "dead-stick" from Newburgh 50 miles to the scene of the crash, was branded as impossible. The testimony of Mr. Ward, a former Marine Corps flyer and a man with many years experience with transport ships, said that there was no ship owned by the company which could fly "dead-stick" for 50 miles and go up and down and from left to right and alter its course while out of control. He said that a ship flying at a high altitude might fly for nearly that distance under favorable conditions but could not change its altitude up and down and from side to side. It would assume a neutral flight and fly flat and straight.

No representative of the Federal Department of Commerce showed up at the inquest but District Attorney C. H. Murray received a reply to a letter sent the department in which he asked several questions. The department admitted that the company had authority to operate air-mail and passenger planes from New York to Buffalo over both the Scranton-Elmira route and the Albany-Saratoga route. The ship which crashed was equipped to fly day and night and was equipped for blind or bad weather flying.

To the question of Mr. Murray, "did the Federal investigation of the accident reveal that the plane when it crashed was off either of the main routes or any orthodox route that may have been authorized?" the department replied, "the accident investigation did not reveal that there were any violations of our regulations with respect to location of the plane relative to the authorized main route or the alternate route as the airline regulations do not define the specific width of a route."

The plane was 50 miles off its course and none of the officials from the airline company could explain why it was in that vicinity. No authority had been given to cut the route short and the pilot had asked none.

It developed, however, that Holbrook, pilot with 8,000 hours flying to his credit, requested shortly before he cleared the airport that he be routed over the regular course by way of Scranton and that the airport officials refused to sanction that change and routed him by way of Albany.

On June 9, there was no heat being delivered from the motors to the cabin of the plane and this disproved Dr. Bourke's theory of asphyxiation.

All pilots are permitted to deviate from their course in order to avoid weather conditions unfavorable. The plane in question was not flying by radio beam at the time it crashed. The Hudson river was to be up the Hudson river to near Albany, where the mountains near, and then to Albany.

Mr. Ward said that plane which he said could climb from 500 feet to 10,000 feet in 10 minutes. The speed was 100 to 150 miles an hour.

Sergeant Hopkins was recalled and testified that after he reached the wreck to save the stewards lying out of the plane and some distance away and that near her hand was a vacuum water pitcher which she probably had in her hand at the time of the crash. This would indicate that she was using it and was not overcome by gas and that the crash came suddenly.

The testimony today closed the inquest and a report of the findings will be submitted later by the coroner.

## Just A Year Ago Today...

(Taken from the files of The Freeman.)

Italo Balbo and his Italian air armada fly over Kingston today on way to New York City.

Arkansas and Alabama join repeal states, making total of 19.

## ALLOT 110 MILLIONS FOR NEW BUILDINGS

### Post Offices to Be Erected in 626 Towns.

Washington.—The administration has announced plans for the immediate expenditure of \$110,000,000 in the construction of federal post offices and government buildings in more than 600 towns throughout the land.

Announcement of the program came from Postmaster General James A. Farley and Treasury Secretary Henry Morgenthau, Jr., accompanied by a carefully detailed list of the cities and towns in each state which are to be affected.

#### 626 New U. S. Buildings.

In all 626 communities in every state and four territories have been selected for new federal buildings, according to the announcement. Half of the program—313 buildings—will be undertaken with the \$65,000,000 authorized for that purpose in the recently enacted deficiency-emergency appropriation bill. It was explained that 313 buildings will be constructed with "funds already available from other sources," it was explained.

In selecting the projects to be included in the new program Mr. Farley and Mr. Morgenthau stated they were guided by the language of the deficiency bill directing that they "endeavor to distribute the projects equitably throughout the country so far as may be consistent with the needs of public service," and "with a view of relieving country-wide unemployment."

The announcement by Farley and Morgenthau said:

"The acquisition of the necessary land and the preparation of plans and specifications will be taken in hand immediately with a view toward getting the contracts on the market and awarded within the shortest practicable time.

"Preference is being given to those projects for which the government has previously acquired the necessary real estate for building purposes, so that an immediate start may be made in the preparation of plans and specifications. In all other cases the real estate will be acquired as rapidly as possible."

#### 191 Lack U. S. Buildings.

"Of the 302 projects," the announcement added, "there are 191 communities selected which do not have any federal building at the present time and where the average postal receipts amounted to approximately \$20,500 per annum."

"In selecting the new list of building projects, the secretary of the treasury and the postmaster general have given consideration to the locations of the 324 projects already authorized under other funds but which have not been placed under contract. These will also be placed under contract as quickly as plans and specifications can be prepared."

"Every effort will be made in the carrying through of this program expeditiously with a view to relieving unemployment throughout the nation."

### 100-Year-Old Quilt Is Made of 71,820 Pieces

Lancaster, Pa.—A hundred-year-old quilt made from 71,820 pieces of material is in the possession of Mrs. Richard Van Riper.

Very little is known about the history of the quilt, except that it was made about 1834 by Elizabeth Zell, who lived in Little Britain township, near here.

By inheritance, the quilt went into the hands of Mrs. Arthur Bickham, who provided that her sister-in-law, the present owner, should have it upon her death.

It has been estimated that the work on the quilt required at least ten years. There is some dispute as to whether most of the material used is old chintz, or old calico. The pattern is made up of 7,920 diamonds, each with nine tiny rosettes. Each rosette is made of a tiny circle of cloth, apparently cut around a dime. Half the diamonds have eight rosettes, with a red one in the center. This color scheme is reversed in the remaining half of the diamonds. Seen from different angles, the quilt shows hundreds of geometric designs of larger diamonds, pyramids and cubes. Held to the light, the quilt looks like old lace.

The quilt is 7 feet 11 inches long by 7 feet 2 inches wide. So fine is the needlework that the stitches scarcely can be seen with the naked eye.

### Rabbit Builds Its Home in Nebraska's Capitol

Lincoln, Neb.—A Nebraska cotton tail rabbit, possibly with political aspirations, chose the steps of Nebraska's \$10,000,000 state house as a place to rear its young.

Surprised yard men, watering clumps of low shrubs on the first landing of the steps leading to the main entrance of the huge building, found a nest of the new-born rabbits. The nest was located only a foot from the walk over which hundreds of capitol visitors pass.

### New Highway Will Climb High Up the Mountainside

Remo, Nev.—A highway soon to be constructed will climb to within 300 feet of the 10,900-foot Mount Row near here. The road will be one of the highest in the United States. Engineers said on clear days the glider dome of the California state capitol at Sacramento, more than 100 miles away, may be seen.

### Builds Self an Island and Governs It as King

Kafalu, Ont.—Kafalu, an island made from a swamp, is a small spot of Lake Erie.

The tiny island is situated ten miles from shore, and has the reputation of being a "swamp" island. It was built by a man named Wagner, who was a swamp land owner. He was building a house on the island, and he was building a house on the island. He was building a house on the island, and he was building a house on the island.

The bar was a mere speck in the bay, but it was the only place where Wagner could build his house. He was building a house on the island, and he was building a house on the island. He was building a house on the island, and he was building a house on the island.

Wagner always was a water lover. He was building a house on the island, and he was building a house on the island. He was building a house on the island, and he was building a house on the island.

He put off for the bar, with his boys and some planning. Then he built a more permanent house, built by Wagner. He was building a house on the island, and he was building a house on the island. He was building a house on the island, and he was building a house on the island.

The Wagners built a home. The island grew. Twelve cottages were finally built. Today, Kafalu has its own harbor and docks for boating. Lops Wagner, as "king" of the island, owns it and "governs" it.

### Introducing Coal

Coal was first dug in the British Isles on the south shore of the Firth of Forth. For centuries there were no means of draining coal pits, and early coal was obtained in hilly districts. In some places shallow "bell pits" were dug. In 1719 the deepest coal mine in the country was only 90 feet deep. Gunpowder was first used to blast coal in that year. In pits where fire-damp accumulated, it was exploded each morning by "a resolute man of purpose," who went down clothed in rags saturated with water and provided with a long pole at the end of which was a lighted candle.

There was no form of safety lamp until the year 1815.—Montreal Herald.

### Salads

are so much better with

Gulden's mustard

Salads are deliciously different when Gulden's is the seasoner. Add one tablespoon of Gulden's to one cup mayonnaise—and one teaspoon to a cup of French dressing, or to taste. The Gulden blend of choicest mustard seeds and rare spices gives so much more flavor.

## Boast of "Killing Pal" Apparently Borne Out

New York, N. Y., July 19.—John Johnson, 31, of Alameda, Calif., residing in Chicago, county jail today after the court had ruled that he was guilty of the slaying of a woman, apparently had been out of the country for some time.

Johnson signed a written confession to the slaying last night after the body had been found in the pool of blood from a black woman he had slain at a rural village. He was arrested after the crime for authorities.

Johnson was arrested June 15 after a series of robberies. He was charged with carrying concealed weapons and with receiving and concealing stolen property. He has been held in jail since.

His boast of a killing was scoffed at by the state police at Chicago, because of Johnson's record. Johnson was a victim of shell shock suffered in the World War.

District Attorney Glen S. Carter said he would oppose release of Johnson in bond on the charges he is held on at present. This, he said, would give him a chance to present the case to the September grand jury. Johnson signed his confession in the presence of Sheriff Charles Dunckel and other authorities.

## Two Taxi Drivers Held For Cashing Drafts

Chicago, July 15.—With two taxi drivers in custody for cashing drafts, police worked today for the return of a \$250,000 draft of negotiable drafts.

The drafts issued to the Chicago taxi drivers, St. Paul, and Pacific National, disappeared mysteriously on June 8, when Joseph Fruscone, a trusted messenger started with them for the post office.

Under papers in the package were found but the drafts were not received. Their loss was not disclosed until last night when the two drivers were brought to the detective bureau.

Post office inspectors who started a joint investigation said there were no developments in the case until a small draft for \$100.00 was found to have been cashed in a Chicago tavern by Charles Herman Miller, 31 a taxi.

Miller and Joseph Fruscone, another driver, were apprehended for questioning but police said the two were not linked as yet with the disappearance of the drafts.

Quintana police said arrested in found the draft in a taxi left on the morning board of his car, and gave it to Miller to cash, told to share in the proceeds.

## Al Smith Back In Tammany Hall

New York, July 15.—Alfred E. Smith, the once irreconcilable warrior, is back in Tammany Hall.

James J. Dooley, the Hall's new leader, announced today that the former governor had come back to the Hall to confer on the matter of a revision of New York city's out-of-date charter, a matter which Smith is directing as chairman of the city charter commission.

Smith's recognition came more of the Hall marks evident peace between two factions which have been in bitter opposition since John F. Curry was elected to head the Hall five years ago. Curry's father and brother's succession apparently have caused the hatchet to be buried.

Dooley, executive vice president, to a right-about face on Curry's policies, said he would confer with Governor Lehman on the constitutional amendment affecting county offices in Greater New York city. Under Curry's leadership, the Hall fought both charter revision and county reform.

## Icehouse Fire Today On Bruyn Avenue

A fire that broke out at 10 o'clock this morning in the icehouse of A. C. Winfield on Bruyn avenue destroyed the greater part of the roof and one of the sides before the firemen from the Central Station and Wiltwyck Hose Company gained control of the flames with three lines of hose. The blaze gave the men a stubborn fight for about two hours.

Cornell Hose Company was called out at 11:55 this morning to fight a dump fire on Voemans street in the Poughkeepsie section, and worked until after 1 o'clock this afternoon checking the flames.

## HOMESPUN YARN

Honey should be kept in a warm room rather than in a refrigerator.

A boy's closet, to be well equipped, should contain a laundry bag suspended on a clothes hanger.

A blend of several kinds of spice gives a pleasant flavor to pickles than does a large quantity of one spice.

Poison ivy may be identified by its shiny leaves of three leaflets. "Leaflets three, let it be."

Materials for salads should be washed early in the day and then set away to crisp in tightly covered refrigerator containers.

Remove spots from linen as soon as they appear, because if they are allowed to dry, a chemical change may take place so that the stain becomes set.

All non-acid foods need to be canned under pressure, so if you do not own a pressure cooker, borrow one for canning peas, or be one of a neighborhood circle to purchase a cooker cooperatively.

ABOUT FIFTEEN PER CENT OF HOUSES NEED REPAIRS

Of the six and a quarter million farm houses in the country, probably about one-half are in fairly good structural condition, according to studies made in 352 counties in forty-six states by the United States department of agriculture.

A statement to the New York state college of agriculture says about fifteen per cent of farm houses need complete replacements of foundations, and between fifteen and twenty per cent need replacements of roofs.

The estimated cost of alterations and repairs to put farmhouses in good livable conditions amounts to about three and one-half billions of dollars, or an average of \$575 for each house.

ANNOUNCES WHEAT PAYMENT ON 1934 CROP OF 29 CENTS

A proclamation by Henry A. Wallace, secretary of agriculture, announces payment on the 1934 wheat crop of twenty-nine cents a bushel. The sum is payable in two installments, twenty cents in October, and nine cents in June, 1935.

Acres permitted to be planted by contracting farmers for harvest in 1935 is the same as in 1934, or eighty-five per cent of the average seeded acreage during 1920-32, which is taken as a base period. Thus, the required reduction compared to the average during this period is fifteen per cent.

Benefit payments will be obtained from the proceeds of a processing tax of thirty cents a bushel on wheat.

Freed Slaves in Church Henry Ward Beecher freed a mulatto girl in a Brooklyn church in 1843. He appealed to the congregation thus: "This is a marketable commodity. Such as she are put into one balance and silver into the other. I reverence woman. For the sake of the love I bore my mother I hold her sacred even to the lowest position and will use every means in my power for her uplifting. What will you do now? May she read her liberty to your eyes? Shall she go out free? The congregation responded generously with money to free the girl. Subsequently the noted minister freed other slaves in his pulpit.

Height of Waves in Gale The average height of waves in a gale is 20 feet from trough to crest. Individual waves may be 40 feet high, as there is much irregularity in their size. The highest wave officially recorded is an 80-foot one encountered by the Mailestic in December, 1922, in the North Atlantic.

## Market for Fruits And Vegetables

New York, July 15.—State Department of Agriculture and Markets.

The following quotations represent prices on sales to commission merchants and other regular buyers on the New York city market, wholesale district up to 4 p. m.

Update green peas averaged a shade lower but the demand was moderate active at prevailing rates. The best stock was offered at \$1.10 per bushel basket. The finest pea-pods were from Washington and changed hands at \$1.10 per bushel basket of crates.

Fancy tender snap beans met a fairly prompt outlet. Supplies from upstate were moderate. Jotting business on the beautiful variety was reported at \$1.00 per bushel basket. The green round stringless brought \$1.10 and the wax variety \$1.10.

Fancy curly spinach continued to meet a ready sale in a steady market. A large volume of the long business on the best offerings was consummated at \$1.10 per bushel basket of crates.

Price fluctuations on state big Boston lettuce were small and unimportant. Jotting business on crates of two dozen heads was made at \$1.00 per bushel basket. The active and sold at about the same prices as did lettuce.

The celery market was dull and slightly weaker. Supplies from Orange county and northern in the rough, packed in high ball crates, peddled out slowly at 75 cents for the best.

## American Cities Show A Huge Debt Increase

New York, July 15.—The debt of American cities have begun to increase again to a big way. Their total is estimated now at over \$15 billion.

Before the depression the total was about \$10 billion. The rate of increase was about \$1 billion a year. The estimate reported today that municipal debt was in the general market in the first six months of 1935 exceeded \$1 billion.

This was approximately the same sum for the whole of 1933.

SOUTH RONDOUT South Rondout, July 15.—Mrs. Adolph Herderick, mother of Mrs. John H. Stengel, has returned to her home in New York city after spending the week-end at the home of her daughter and son-in-law, Mr. and Mrs. John H. Stengel, of First street.

Mrs. Russell Maurer and family and niece, Helen Maurer and Anna Catherine Grimes, enjoyed a picnic at Esopus on Wednesday.

Mrs. William Robus and son, Wilfred, of Fort Hamilton, spent the week-end at the home of her niece, Mrs. John H. Stengel.

Mrs. Ed. Frinkel and daughters, Kathleen and Emma, of Port Ewen were recent guests of their aunt and uncle, Mr. and Mrs. J. H. Stengel.

FOXES Carry Scents Foxes carry powerful scents on their bodies, an advantage in some cases but a danger in others for they leave a tell-tale trail that can be picked up by any dog. The scent also tells other forces of its whereabouts, and mate can follow mate, no matter how great the distance.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell the decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything. What makes the food decay in the bowels? Well, when we eat too much, our bodies can't digest it. What is the big juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 3/4 of our food decays in our 28 feet of bowels. This decayed poison all over our body every six minutes.

When our friends smell our bad breath that we don't feel and we feel like a "chip" is stuck in our throat, don't use a mouthwash or flossing. Get at the cause. Take Cuticura Little Liver Pills which gently start the flow of your bile juice. But if "bile" is better" is offered you, don't buy it, for it may be a salmi (mercury) pill, which poisons teeth, nerves and wastes the system in waste people. Ask for Cuticura Little Liver Pills by name and get what you ask for—24¢, 210¢, C.M.C.

MISS Pearl Gazzley called on Mr. and Mrs. John Stratton on Monday evening.

Mrs. William Mitchell, who was formerly employed at the Schenck home in Kerhonkson, now has employment at the B. Harowitz home at Pataukunk.

Maynard DeWitt was in this vicinity on Monday looking for men.

Asa Wynkoop and men, who are assisting him in harvest, are doing the harvest on the Harry Malinka farm in Cherrytown.

KINGSTON, N. Y., JULY 19, 1934

## NATURE STEPS IN

Nature comes to the aid of the government and takes care of the troublesome farm surplus. Department of Agriculture reports show a wheat crop this year under 500,000,000 bushels, the lowest in 40 years. Corn is about five-sixths of the average. The hay crop will be 200,000,000 tons short; they are hauling baled hay in many dry sections from the city to the country. Cotton, while not exactly a "drip," is 3,000,000 bales below last year. The hog crop is the lowest in 50 years, suggesting that some of those little pigs boiled up for grease may be missed. Oats will be about half of the five-year average. Potatoes are a little below normal, "sweets" a little above. Rye and barley are less than half the usual crop, rice about the same, tobacco a little over two-thirds.

Prices are obviously going to be higher. That will benefit farmers, lucky enough to have fair crops. Whether the farming population as a whole will gain is hard to say. Some whole districts, hard hit by the drought, will require government help, and so will many a farmer or community in areas where crops are pretty good. The government's agricultural problems are simplified somewhat. It will incur less criticism for direct relief, where that is needed, than for crop-cutting subsidies to make an artificial scarcity.

## OLYMPIC GLIDING

The Soaring Society of America finished its fifth annual meet on July 8 with an achievement which had nothing to do with this year's gliding records. It won its six-year struggle to have gliding included in the Olympic Games in 1936. Previously the German Soaring Society has maintained this would be impossible because the events could not be held within the Olympic arena. It was not a convincing explanation, because so many events in the last Olympic Games—notably the winter sports—were not even held the same season as the track and swimming contests.

The Germans were the first to take to motorless plane gliding in a serious way. Other countries have been taking it up with growing enthusiasm. The recent American gliding meet brought out a large number of participants and saw the breaking of distance and altitude records as well as the performance of amazing stunts formerly considered safe only for motorized planes. What the Germans turned to as a means of training pilots when they were not allowed to build military aircraft, Americans have taken up as a delightful and thrilling sport, requiring plenty of courage and skill. It is on that basis that gliding breaks into the Olympic Games. The Greeks would have liked it. Here is their own dream of Icarus come true.

## WHO'S A BIG OX?

American citizens are not yet slaves. The Constitution still stands, and regimentation is limited, even in motor traffic. This truth had a glorious exemplification in Oklahoma City, when a woman driver was arrested for telling a traffic officer what she thought of him. The heroine, Mrs. Gid Bryer, evidently didn't like the way Officer Elmer Farber held her up at an intersection. So when he let her go ahead again, she remarked as she drove past him, "Thank you for letting me go." In court the lady cheerfully admitted it. "Merely an expression of opinion," said the judge, and dismissed the case. Which is surely a broad-minded show.

Now it will be interesting to see whether there is an epidemic of women calling policemen "big oxen." There's no telling, when they know they can get away with it. Men may try it, too. But the trouble is that men may not be satisfied with this particular expression of disapproval.

Mr. Patri will give personal attention to inquiries from parents and school teachers on the care and development of children. Write him in care of this paper, enclosing a three cent stamped, addressed envelope for reply.

## OUR CHILDREN

By Angelo Patri  
 SELF-CENTERED

## DEAR BOY

You had a very bad day yesterday. You thought that the world was against you that everything went off in the way that it should and that you and your mother and father were really in a bad way. It only looked to be as if the world was against you that way. It's a gloomy self-centered way.

To begin with, let me tell you something that I discovered a long time ago. Nobody in this world does very much more than happens to you except your mother and father. They care all the time about the rest of the world, but they are so busy attending to their own troubles that they haven't much time left to watch what you do or leave undone. You get along pretty much by yourself with now and then a lift from a friend. Nobody goes far out of his way to either help or hinder you. You have just the same chance as everybody else has to come out on top of the scrambling heap. Few stop either to cheer or to curse. Nobody's pointing, a pointer, the truth than what you felt all day yesterday as you groused through the hours.

## CUEL CLOTHING

There doesn't seem to be any limit to the absurdities of summer clothing. This season is sillier than usual. Here is the coat question making trouble again in many cities, and exemplified in Bronxville, N. Y., by cruel and unusual punishment. Cab drivers there have their licenses suspended by the mayor for refusing to wear coats, as is required by a village ordinance. The obvious offense of taking off their coats while on duty was committed on a day when the thermometer registered 100 degrees in the shade, and the offenders were in the sun.

And this is a land where a large part of the male population is displaying itself in such minimum essentials as truncated trunks, and millions of women are going just about as far. We're a funny lot. There is something to be said for the nudists. They at least are consistent.

## That Body of Yours

## INJURY TO NERVOUS SYSTEM.

That our Pension Boards and Workmen's Compensation Boards are made up of men who are trying to do their work honestly must be admitted. It would be easier for them to be overgenerous and so avoid complaints and criticisms from pensioners and workmen, than it is at present when they are endeavoring to be "fair" to the state or province.

## N-E-W-S

## BEHIND THE N-E-W-S

(Paul Mallon, whose signature usually appears over this dispatch, is on a brief vacation. During his absence the column will be composed of contributions from leading Washington correspondents.)

## In Touch

Washington, July 18.—With serious events taking place in various parts of the country and the President far out in the Pacific ocean, the public is naturally curious to know how he keeps in contact with the situation and how quickly he learns of what happens. It is obvious to every one that, through the navy wireless, President Roosevelt is in communication with the executive offices in the White House at Washington, but the closeness of this touch may not be realized.

During his cruise in the Atlantic and Caribbean, the White House forwarded important papers and messages to the President by air mail over the Pan-American system as well as by wireless. He received a big batch of mail while in Porto Rico and he was caught again with air mail in the Canal Zone. Mail from the President came back in the same way. One pouch was sent off by air mail when he entered the canal and another when he left it on the Pacific side. These arrived in Washington the first of the week, a day apart.

Now that he is in the Pacific, mail is forwarded to him by way of San Francisco, it goes in duplicate. One set being sent by train and the other by air mail, so that, if, by any accident, one set was destroyed, the other would remain. From San Francisco, such mail as has collected there is forwarded to Hawaii by fast steamer. After this delivery, the next mail to be received by the President will be when he arrives at Portland, where he is due on August 3.

Messages forwarded by wireless are sent either "in the clear," as those in plain English are called, or in code. Quicker results are, of course, obtained with the plain messages, but only because of the time necessary for decoding. All wireless messages are comparatively short, but some of them run as long as two ordinary typewritten sheets. To illustrate the speed of communication, a dispatch has been sent to the President since he has been in the Pacific and a reply received within forty minutes. Answers to code messages have been received in about twice that time.

The greatest portion of these transfers of information during the past few days has been concerned with the strike situation in San Francisco and on the Pacific coast. Every development in it has been

## OUR CHILDREN

By Angelo Patri

## SELF-CENTERED

## DEAR BOY

You had a very bad day yesterday. You thought that the world was against you that everything went off in the way that it should and that you and your mother and father were really in a bad way. It only looked to be as if the world was against you that way. It's a gloomy self-centered way.

To begin with, let me tell you something that I discovered a long time ago. Nobody in this world does very much more than happens to you except your mother and father. They care all the time about the rest of the world, but they are so busy attending to their own troubles that they haven't much time left to watch what you do or leave undone. You get along pretty much by yourself with now and then a lift from a friend. Nobody goes far out of his way to either help or hinder you. You have just the same chance as everybody else has to come out on top of the scrambling heap. Few stop either to cheer or to curse. Nobody's pointing, a pointer, the truth than what you felt all day yesterday as you groused through the hours.

## CUEL CLOTHING

There doesn't seem to be any limit to the absurdities of summer clothing. This season is sillier than usual. Here is the coat question making trouble again in many cities, and exemplified in Bronxville, N. Y., by cruel and unusual punishment. Cab drivers there have their licenses suspended by the mayor for refusing to wear coats, as is required by a village ordinance. The obvious offense of taking off their coats while on duty was committed on a day when the thermometer registered 100 degrees in the shade, and the offenders were in the sun.

And this is a land where a large part of the male population is displaying itself in such minimum essentials as truncated trunks, and millions of women are going just about as far. We're a funny lot. There is something to be said for the nudists. They at least are consistent.

## INJURY TO NERVOUS SYSTEM.

That our Pension Boards and Workmen's Compensation Boards are made up of men who are trying to do their work honestly must be admitted. It would be easier for them to be overgenerous and so avoid complaints and criticisms from pensioners and workmen, than it is at present when they are endeavoring to be "fair" to the state or province.

## CANADA TO HONOR ITS DISCOVERER AT 400TH ANNIVERSARY FETES IN QUEBEC

QUEBEC CITY—Canada this year celebrates the 400th anniversary of the discovery of the continent by Jacques Cartier. From his native Gaspe, where he first landed in 1534, down the St. Lawrence to metropolitan Montreal, where he tried to run his long boats through the famous Lachine Rapids, picturesque fetes and ceremonies will commemorate the event which started the French exploration of a vast area of the North American continent including the Mississippi Valley and a large part of what is now the Middle Western and North-western part of the United States. Like so many other early Atlantic explorers, Cartier was looking for Cathay when he found Canada and even King Francis believed that beautiful Quebec was part of the lands "which form the extremity of Asia towards the West." When Cartier headed into the St. Lawrence he was sure that he had at last found a Northwest Passage to Cathay. He had been cruising along the coast and, according to Francis Parkman, he had noted the natural wonder of the Bird Rocks, at Percé, where in past centuries gone a gigantic stone bridge must have connected Mont Joli and Bonaventure Island, now a government sanctuary for rare wild birds.

On July 16, 1534, he sailed into the Bay of Gaspe to avoid a storm and on July 24 he landed at what is now the beautiful little village of Gaspe. There he erected a cross thirty feet high and claimed this part of "Cathay" in the name of Francis, and one of the ceremonies this summer at the very same spot will be the erection of a large cross of stone from Cartier's native Brittany. Sure that he had found the way to China, Cartier sailed back to France, taking two Indians and a marvellous load of furs and tales that were true.

"We saw a great multitude of wild men that were fishing for mackerels, whereof there is a great store."

For France he had also discovered one of the greatest fisheries in the world, off the Gaspe coast, which some Canadian historians believe had been fished by Europeans as early as the 13th century. Possibly even Basque fishermen had been there before Cartier. It is certain that French fishing fleets rushed there when they heard Cartier's stories.

In 1535 Cartier returned with a larger expedition to push up the Northwest Passage, the gorgeous St. Lawrence, "into Cathay." He hesitated at the wondrous gorge of the Saguenay River and Indians told him that up that river was a kingdom "rich in precious stones." When

HUNTING FOR CATHAY, HE FOUND CANADA IN 1534—President Roosevelt and the governors of many states are to be invited to join Canada this summer in a series of fetes marking the 400th anniversary of her discovery by Jacques Cartier, a bold French mariner who was trying to find a new route to the spice lands of Asia. Just 400 years ago the French discoverers landed on the beautiful Gaspe peninsula in Quebec, and, sailing up the St. Lawrence, were the first white men to visit the gorgeous Saguenay, the picturesque island of Orleans, the present sites of Montreal and Quebec City, the Lachine rapids and other spots noted among tourists. The United States is asked to participate because this discovery started the French exploration of a vast area of the continent, including the Mississippi Valley and the American Northwest. Fetes are to be held at Gaspe and other cities in the St. Lawrence Valley accessible by modern highways. Picture shows the Cartier high relief on the new Provincial Museum in Quebec City.

he reached the island of Orleans, off the present city of Quebec, and still one of the most beautiful spots in Canada, Huron-Indians told him he was in the Kingdom of "Canada," their word for village.

Still hunting China, in a long boat he reached the Indian village of Hochelaga, site of Montreal, but stopped at the Lachine Rapids, after climbing Mount Royal. During the disastrous winter near Quebec, when many of his men died of scurvy, he still tried to learn more of the marvellous Saguenay country, and decided that the way to get there was up the Ottawa River.

In 1541 Cartier was back again with a still larger expedition and anchored at Cap Rouge, nine miles from the present Quebec City. Later came the seigneur de Roberval, who was to be in general command of the expedition and who was to try to ascend the Ottawa River to the reported land of riches in the Saguenay region. In 1543 Cartier made his last trip to take

Because of the historic importance of the Cartier discoveries, both France and the United States will join in observance of the anniversary. A distinguished French delegation will participate in the ceremonies at Gaspe and then retrace the historic route of Cartier up the St. Lawrence. Both the American Government and many state governments are to be invited because later French explorers traversed so much of the continent now the United States. Champlain, La Salle, Joliet, Hennepin, La Vérendrye—the list of these explorers is almost endless and they explored more of North America in that period than any other race. And what they found turned out to be more marvellous than Cathay itself.

In memory of the past, Gaspe peninsula and the St. Lawrence Valley will be a land of fetes this summer in honor of the great discoverers and thousands of visitors are expected along the marvellous highway system which links together all the historic spots of past centuries.

steward, chaplain, flora and Pomona. The third and fourth degrees were conferred in full form on Theodore Ackerman, Edna Ackerman and Eva Brink.

The chairman of the June committee, Sister B. Davis, turned into the treasury \$78.00 for their month. Sister Davis also thanked the pa-

trons for their kind assistance. Brother J. Dederick thanked the Grange for the use of the card tables, used for the S. U. C. C. card party at Mt. Marion.

A letter of thanks for flowers was received from Brother Vailie. The next meeting will be held on Monday evening, August 20.

## HE TRAVELED 900 MILES... AND LEARNED HOW TO SAVE MONEY!

MAKES "2-TRIP" TEST—Mr. J. P. Cochrane, Waban, Mass.—Chevrolet owner. Read how Gulf-lube made a surprising difference in his oil costs.

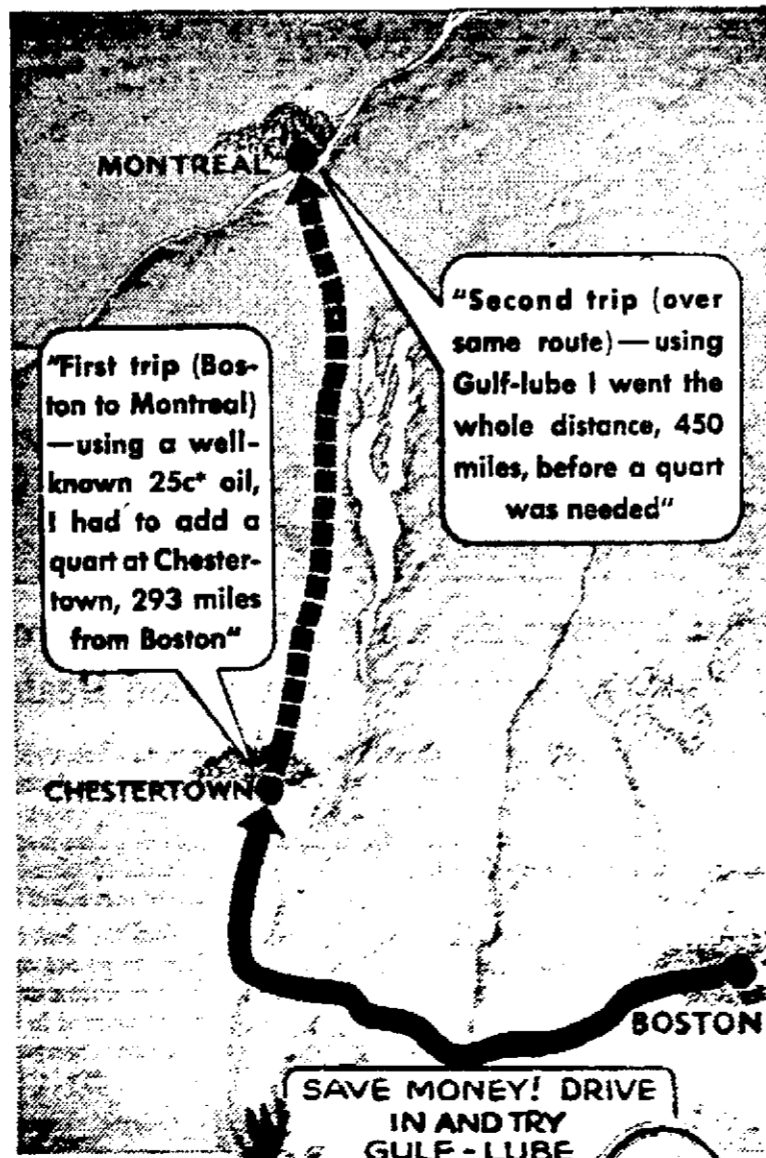

"I USED TO THINK that all 25c motor oils were about alike," says Mr. J. P. Cochrane, of Waban, Mass. "But I've changed my thinking!"

"Recently, I drove my car from Boston to Montreal—using a well-known 25c oil. And at Chestertown, N. Y., I had to add a quart—293 miles from Boston."

"Later I had occasion to cover the same route—and this time I used Gulf-lube. It took me the entire distance between Montreal and Boston (450 miles)—157 miles farther than the oil I had previously used—before a quart was consumed."

SAVE MONEY! Switch to Gulf-lube—the oil that went 28 3/4% more miles per quart than 3 other famous 25c oils in AAA tests. At all Gulf stations. \*Plus tax.

C. W. GULF REFINING CO., PITTSBURGH, PA.

## If You Mind the Heat!

If hot weather gets you, and if you keep cool, the heat is not so bad. When the thermometer registers heat, you probably are feeling warm.

Scop eating heavy breakfasts for a while. Try Shredded Wheat instead. Scop eating a sandwich for lunch. Eat Shredded Wheat instead with milk and fruit on the side. You'll be surprised at the difference it makes in your whole life. You will be happy to pay your digestion won't bother you, and the world will look a lot brighter, no matter how hot the sun shines.

Eat plenty of Shredded Wheat this summer. It will pay you big dividends in health and happiness!

### Legion Auxiliary Will Meet Friday

The American Legion Auxiliary of Kingston Post No. 137, will hold its regular monthly meeting on Friday evening, July 17, at the Memorial Building. This will be an important meeting as delegates to represent the unit at the state convention will be elected and other items of interest will come before the meeting. The state convention is to be held in Buffalo on August 29 and 31, and September 1.

There will be a complete report given on the recent sale of extracts sponsored by the Auxiliary which has now been successfully concluded.

An invitation has been received by the Kingston Auxiliary to attend a luncheon given by the Woodstock Auxiliary in honor of the state president, Mrs. Edna Amrose.

The luncheon will be held on Saturday, July 25, at 1:30 p. m. in Mrs. Chapman's house and garden, in Woodstock. Those attending are requested to make reservations on or before Monday, July 20, to Mrs. Viola M. O'Brien, Glenford, N. Y.

There are still a few members of the Kingston Auxiliary who have not yet paid dues for the current year. As the membership closes July 25, it is requested that those who do not wish their membership to lapse, send in dues before that date. The local unit is anxious to have all its membership dues paid in order to receive credit at the state convention.

### POOLS ADD BEAUTY TO HOME GARDENS AND FARMSTEADS

Ithaca, July 15.—Many persons who have small home grounds or farmsteads would like to build pools to add beauty to their gardens and to increase enjoyment on their home properties, says Donald Bushey of the state college of agriculture. He believes that a little hard work, backed by some ability, enables anyone to have a water garden at small cost. The cost varies with the size of the pool.

A pool, he says, must harmonize with the surroundings. A broken landscape can be used if a stream is desired, especially when rocks, boulders, and flat stones are placed in natural positions along its course.

Many properties have a natural setting for pools. A small stream, a near-by spring, or an overflow from a water-supply tank may furnish the water, and a little grading may form the basin for a large or small pool that may be nothing more than a widening of the stream.

A pool must have a fresh supply of water. Sometimes a continuous drip of water from the main source keeps the pool clean and attractive at low cost or, with an electric pump and storage tank, the same water may be used again and again.

Cornell bulletin E-265 tells how to build pools for home grounds. It advises on correct sizes and shapes for both formal and informal pools, and tells what plantings are best near the pools for reflection and landscape beauty. The state college of agriculture at Ithaca, New York, will send a copy on request.

### FRUIT GROWERS TO SEE FARM RESEARCH AT SUMMER MEET

Geneva, July 15.—Representatives of the state Experiment Station are holding a summer meeting at the farm research station at Geneva, N. Y., today. The meeting is being held at the farm research station at Geneva, N. Y., today. The meeting is being held at the farm research station at Geneva, N. Y., today.

Among the items of work under way at the Experiment Station that are expected to hold special interest for the fruit growers are the rapidly expanding studies on fruit diseases, experiments on the quick freezing of fruits, the breeding of parasites for the control of the oriental fruit moth, the use of electric light traps in apple orchards, the extensive fruiting orchards and vineyards in which the station is developing new varieties of fruit, and numerous other things.

Unfortunately, the station orchards and vineyards have suffered severely from the cold weather of last winter and drought of last summer, and of this season, says Prof. Parrott, so that they will not present their usual attractive appearance. Visiting fruit growers, however, will doubtless welcome the opportunity to compare their own conditions with those on the station grounds and to consult the station specialists on the measures to be taken to meet the present situation in most fruit plantings in the state.

**BLUE MOUNTAIN**

Blue Mountain, July 15.—Sunday school next Sunday at 9:45 a. m. Morning worship at 11 a. m. In charge of the pastor, the Rev. Eugene Durrye; topic, "Visible Christianity." C. E. meeting at 8 p. m. E. B. Myer, leader.

Mr. and Mrs. William Hommel spent Tuesday evening with Mr. and Mrs. William Bach of West Saugerties.

Mrs. Melvin Schoonmaker called at the home of Peter Moose on Wednesday evening.

Mrs. Anna Hiza has a number of city guests.

Constance de Pool and friend from New York city spent the week-end with her parents, Mr. and Mrs. J. J. de Pool.

The Blue Mountain homestead has two city guests.

Mrs. Ella Voorhes is spending some time with her nephew, the Rev. Eugene Durrye.

Mr. and Mrs. Harry Freligh spent Sunday afternoon with Peter Myer and family of Kingston.

Mr. and Mrs. Carl Carlson of Waterbury, Conn., are spending some time with her parents, Mr. and Mrs. Everett Becker.

**Blue Bees' Favorite Color**

Blue is the favorite color of bees, according to observations by Sir John Lubbock.

### Practice "Drink More Milk"

## IT SEEMS THAT— Ladies prefer Gentlemen!

And if you'll ask your wife, we think she'll tell you she always finds them at Socony Stations and Dealers

WE wish you could read some of the letters that come to us from women. Time after time they tell us, "Your men are so gentlemanly!"

We're rather proud of that, because we believe that it proves a man can be skillful at servicing your car—and yet be clean and courteous.

Make no mistake—servicemen at Socony stations and dealers have to know cars. They have to be good servicemen first of all.

But they're trained to go a little

further. They think about the car owner as well as the car. For instance—you'll find them always covering the steering wheel and seat cushions when they have to enter a car for service.

They keep their stations spic and span inside and out. They keep washrooms spotless—driveways clean—displays neat and orderly. They know women prefer to stop at a place that is tidy.

So your wife needn't hesitate at stopping at any Socony station or dealer. She'll get good gasoline and oil, of

course—Socony Mobilgas with Climatic Control, and Mobiloil, the world's largest-selling motor oil. And she'll drive out with tires inspected, radiator filled, windshield cleaned, oil checked—all the little needs of the car taken care of.

And the best of it is—she doesn't have to go out of her way. There's a Socony station or dealer for every two miles of road in New York and New England. When you need gas—just look for the sign of the Flying Red Horse.

NO SOILED GLOVES: This special steering wheel cover is provided by Socony so that no stray grease or oil will remain behind.

YOU'LL FIND WASHROOMS that are spic and span! Socony servicemen are very careful to keep them always clean and sanitary.

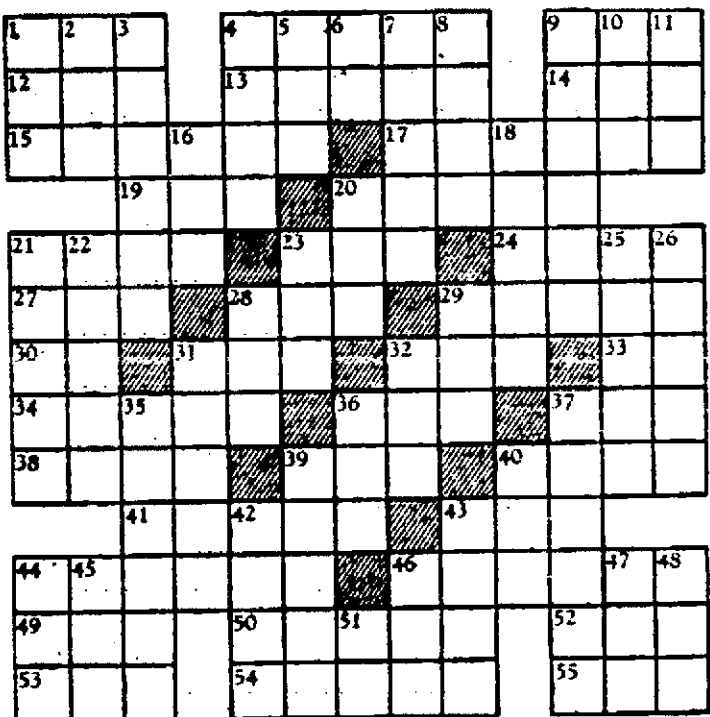

A WINDSHIELD WIPER that doesn't work may be dangerous. Socony servicemen are glad to make such little adjustments for you.

# Socony Mobilgas Mobiloil

# Fashions by Barbara Bell

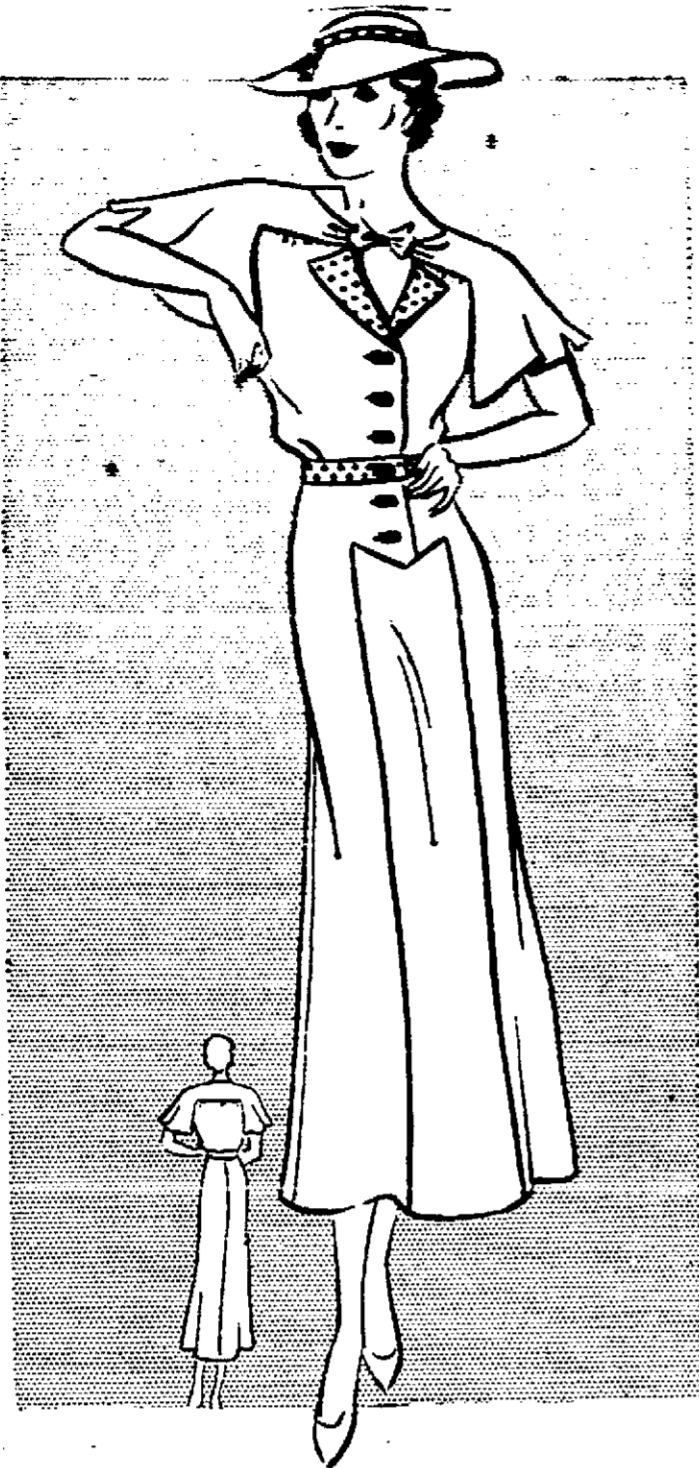

## A Town and Country Frock of Wash Silk

tailored dresses of either light or dark wash silk are looked upon favorably for late July and early August wear. The newest models come in a delightfully cool fabric with an open porous weave that is said to be as comfortable as it is cool.

The dress shown in the illustration is one that will be vastly becoming to any woman from size 12 to 18. Its lines are basically classic. The unbroken yoke extending into sleeves is a very new trend that we will hear much about as the season progresses. The small revers and neck bow are artfully proportioned. All conspire with the front button-closing to create a captivating effect of prestige making the dress a perfect choice for the business girl who finds correct and comfortable dressing more or less of a problem.

The absence of plaits in many of the late summer frocks is a matter of comment, also one of deep appreciation in hurried quarters where pressing is regarded as a burden and a chore. This particular frock saves by means of gorges and insets that provide freedom when in motion. The novelty buttons are oblong ones, the abundant use of which is an outstanding feature of the new fall fashions. Unique fastenings and clips will form amusing trimming details on daytime frocks. They will be made in every metal available, as well as wood, bone, cork, crystal and self-fabric of the dress. Gold, of course, is on the up and up, so the use of it will in all probability displace chromium and copper. Buckles are increasing in size and in many instances dominate the entire front of the frock they adorn. The coming fashions are to be simple ones carried out in fine fabrics and with conspicuous button, clip and buckle trimming.

(Copyright 1934, by The Bell Syndicate, Inc.)

## MENU FOR TODAY

### Menu For Friday, July 20

Breakfast: Mince, oatmeal with cream, scrambled eggs, Melba toast, orange marmalade, coffee.  
Luncheon: Vegetable timbales, cheese macaroni, fruit salad, mayonnaise dressing, crackers, cheese, tea.  
Dinner: Cream of onion soup, broiled mackerel, mashed potatoes, baked stuffed tomatoes, cabbage salad, peach pie, cheese, coffee.

### Melba Toast

Melba toast is quite simple. Slice white bread very thin, cut crosswise, then place in a baking pan and bake in a medium oven, turning until very brown on both sides and baked very crisp. That's all there is to it. Dark bread can be used as well.

### Vegetable Timbales

Three eggs, 1 cup vegetable juice or pulp, 1/4 cup cream or undiluted evaporated milk, 1 teaspoon Worcestershire sauce, 1 teaspoon scraped onion, salt, pepper. Beat the eggs and add the vegetable juice. Four in the cream slowly and stir constantly. And the seasonings. Turn into buttered custard cups or timbale molds, set in a pan of hot water, and bake in a moderate oven (325 degrees F.) for about 30 minutes or until firm. Turn the timbales out onto a hot platter and pour white sauce around them.

### Peach Pie

Pare and slice thinly 6 or 8 ripe, soft peaches, sprinkle with powdered sugar and let stand one hour. Line deep pie plate with rich pastry, sift 4 tablespoons powdered sugar over bottom and bake. When done, fill quickly with prepared fruit. Spread on meringue made of whites of 3 eggs, 3 tablespoons sugar and few drops vanilla extract over top and brown slightly. Serve very cold. If preferred, sweetened whipped cream may be substituted for meringue, in which case the warm shell should be filled with fruit and become cold before cream is added.

(Copyright, 1934, By The Associated Newspapers)

### SOUTH ROUNDOUT.

South Roundout, July 18.—Mr. and Mrs. Walter Bullis of Long Island were guests of Mrs. Bullis's sister, Mrs. Stephen Murphy, and family on Sunday. Her son, Vincent returned home with them for a short stay. Mr. and Mrs. Albert Radel and daughter, Roberta, are visiting relatives in Newark, N. J., this week. A. E. Vetoskie, local butcher, has

been confined to his home for the past few days by illness and is under the care of Dr. George Rom.  
The Misses Elsie and Gertrude Pardee and Catherine Mills are spending a few days at the home of Mrs. Henry Myers of South Broadway, Port Jervis.  
Doris Wilson has returned home from the Kingston Hospital after an appendicitis operation.  
Mr. and Mrs. Sayer and daughter Shirley of Saugerties were recent callers to Mr. and Mrs. Joseph Schaefer.  
The alterations and improvements of the Hoising house, recently purchased by Frederick Becker are being done by Harry L. Smith, architect and builder of Saugerties.  
There was no service in the M. E. Church on Sunday night last.  
John Meyer has returned home for a few days.  
Miss Anna Catherine Grimes of Rochester, N. Y., is visiting relatives in the village and will leave for a vacation.  
Mrs. William W. Chandler is the president of the Kingston Hospital Association of many years and a most capable administrator. She was spending some time at a sanatorium in the Catskills after being ill a number of weeks.  
Mrs. H. H. and Mr. H. H. were in the city last night and Sunday.

WOULD YOU BELIEVE SOAP COULD MAKE SUCH A DIFFERENCE? I USED A NEW KIND IN THE WASHING MACHINE TODAY—AND LOOK! THESE SHEETS ARE 4 OR 5 SHADES WHITER. THE WHOLE WASH LOOKS BRIGHT AND FRESH AS NEW!

YOU'll be thrilled, too—first time you use Rinso! So safe for colors, so easy on hands. And what gleaming, snowy whiteness! No wonder the makers of 40 famous washing machines recommend Rinso. No wonder it is endorsed by the home-making experts of 316 leading newspapers.

Rinso is marvelous for tub washing, too! SOAKS out dirt—saves scrubbing—clothes last 2 or 3 times longer. You'll save money! Rinso gives rich, lasting suds—even in hardest water. Makes dishwashing and all cleaning quick and easy. Try it. Tested and approved by Good Housekeeping Institute.

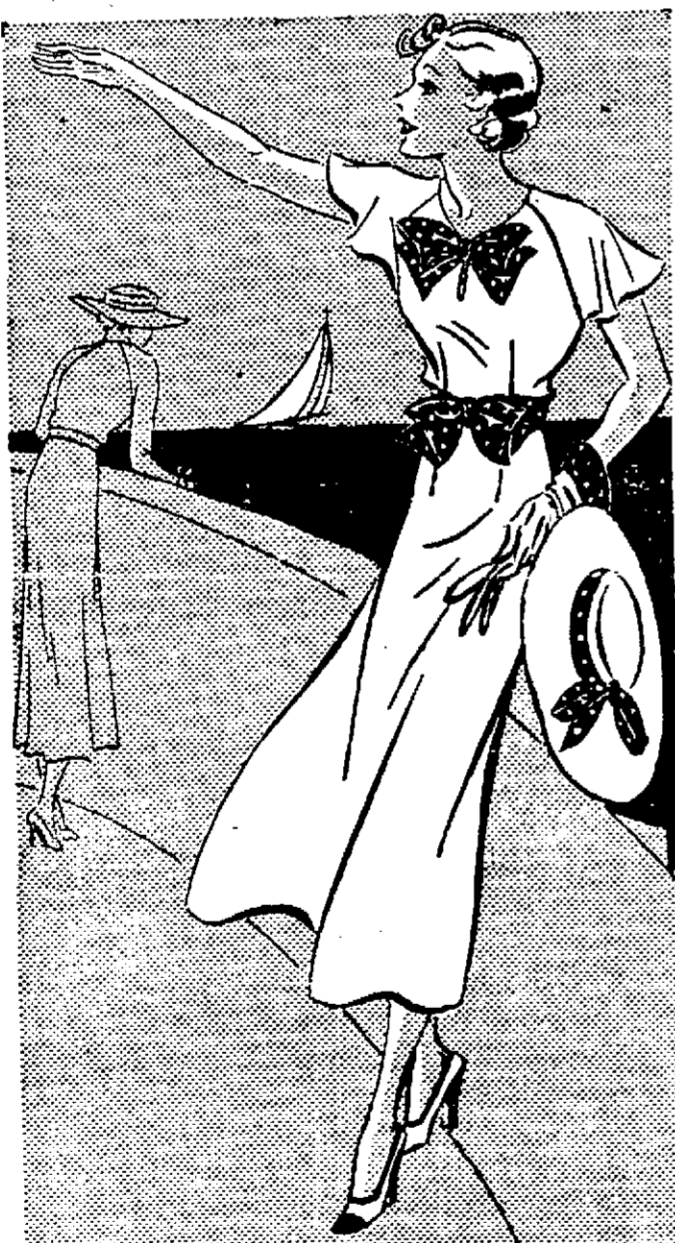

THE BIGGEST-SELLING PACKAGE SOAP IN AMERICA

## Smart! Isn't It!

Edited by

LAURA I. BALDT, A.M.

For many years Assistant Professor of Household Arts, Teachers College, Columbia University, New York

2937

Pastel tub silk frocks, so flattering to summer complexions, with burst of color in its trim, is choice of the smart woman for casual daytime summer wear.

A very favored scheme is the model illustrated in aqua-blue with navy blue trim with aqua-blue coin dots.

Ice-cream pink with raspberry contrast is another new dashing combination.

Today's simple to put together model would also be lovely in yellow pique dotted in brown, blue and white linen stripe or maize exact bastiste.

Style No. 2937 is designed for sizes 14, 16, 18 years, 36, 38, 40 and 42 inches bust.  
Size 36 requires 3 1/4 yards of 39-inch material with 1/2 yard of 39-inch contrasting.

Send TEN CENTS (10c) in stamps or coin (coin is preferred). Write plainly NAME, ADDRESS and STYLE number. BE SURE TO STATE SIZE YOU WISH.

THE NEW SUMMER EDITION of our PATTERN BOOK features FASHION, BEAUTY and HEALTH.

PRICE OF BOOK TEN CENTS.

Address orders to KINGSTON FREEMAN PATTERN DEPARTMENT, 200 Fifth Ave., New York, N. Y.

## WOODSTOCK AUXILIARY'S TWO IMPORTANT DATES

Woodstock, July 19.—On Saturday, July 28, members of the Woodstock unit of the American Legion Auxiliary will be hostesses at a luncheon at Mrs. Chapman's house and garden in honor of Mrs. Edna Ambrose, president of the American Auxiliary of the state of New York. A cordial invitation is extended to all auxiliary members in Ulster county and all reservations must be made not later than Monday evening, July 23, either by mail or by phoning Mrs. Wesley O'Brien, Kingston 326-M-1. The Woodstock ladies are planning an interesting day for Mrs. Ambrose and hope that all who can possibly do so will attend the luncheon. Other guests will include Mrs. Ida N. Ashby of Kingston, state secretary-treasurer, and Mrs. Ethel Mellon of Catskill, third district chairman.

On Friday afternoon and evening, July 27, the Woodstock unit of the American Legion Auxiliary will hold a garden fête on the Grover Cash-doll property opposite the school. There will be music and refreshments of all kinds also a fancy table of hand made articles. There will be a fish pond for the children and games for young and old. The committee, headed by Mrs. Lillian F. Downer, is still busy planning and other features will be announced later.

# THIS BEAUTIFUL NEW BOTTLE

*Gives you a full quart  
of world-famous ginger  
ale for only 20¢*

SINCE 1881, it's been impossible to get a ginger ale of finer quality than Clicquot Club. Now Clicquot Club adds to quality a new and unequalled standard of value. For today, at your dealer's, you can buy this fine old ginger ale in full-quart bottles for only 20¢! Every bottle pours from 6 to 9 long, iced drinks!

Clicquot Club Pale Dry is a really dry ginger ale—keen, zesty and appetizing. In it you get the pick of Jamaica's ginger... aged with selected taste-heighteners of tangy piquancy... blended with pure water from deep rock sources. In full-quart and full-pint bottles, Clicquot Club is a bargain in quality not to be overlooked. Just drop around to see your dealer. He has it. . . . Clicquot Club Company, Millis, Massachusetts.

20c A FULL QUART (plus 5c bottle deposit)

A FULL QUART  
IS 32 OUNCES

Clicquot Club comes in full-quart and full-pint bottles. A full quart is 32 ounces, a full pint 16 ounces. All ginger-ale makers must print net bottle contents on the label. So look at the label before you buy . . . and be sure you get your money's worth!

FULL QUARTS • FULL PINTS

**Clicquot Club PALE DRY**  
Established 1881 THE VINTAGE GINGER ALE • REALLY DRY

Clicquot Club "SOBER"  
Pure water from deep rock sources, lithium and carbonated. A sparkling water of unusual zest and fine quality. In full-quart bottles.

Clicquot Club CORDON  
If you want the full ginger taste. Made of selected ingredients only. Like Clicquot Club Pale Dry, see-contrasting-technique.

### Your GROCER Smiles, too

When your grocer hands you a loaf of SCHWENK'S BREAD he usually smiles, because he's giving you a food he knows is satisfying and nourishing and aids in building strong, healthy bones and teeth.

And when someone asks him for just a loaf of bread, he recommends SCHWENK'S BREAD because he knows it is made of the best ingredients, in an immaculate bakery, by skilled bakers.

SCHWENK'S BREAD is fine for every purpose. It makes sandwiches that are pleasing in taste and at the same time nourishing. And if you want crisp toast that fairly melts in your mouth, this is the loaf for you.

SCHWENK'S BREAD now contains the Sunshine Vitamin D aid in building strong and healthy bones and teeth.

Also bakers of fine rye bread and 100% whole wheat.

ASK FOR IT AT YOUR GROCER'S TODAY.

### Flashes of Life

#### Sketched in Brief

By The Associated Press

Live As You and I

**WEEK END**—Last night's storm was doing its worst. Charles W. Brown, who lives on a farm near the city, reported that his car was washed away and the engine started to float in the water. A woman's car was also washed away.

**Better Late Than Never.**

Henderson, N. C.—W. A. Newman, a merchant, who has been waiting for several years for a new store, has finally moved into a new building.

He removed a drawer from his cash register and found it empty.

A check dated April 1, 1934, for \$10.00 and another dated April 1, 1937, for \$10.00.

Five old style dollar bills.

Nearly a dollar in small change.

**At the Nubbia.**

Canton, China—Canton students are to be punished by being placed in wooden cages and paraded through the streets. Also, municipal authorities ruled, persistent students may be fined \$5.

**Monkey Battle.**

Chicago—Fifty monkeys were injured in a hand to hand combat between 259 rhesus and 159 bengal monkeys at a Century of Progress.

They fought two hours before the tribes were separated.

**Drouth Afflicts Burglars.**

Shreveport, La.—The hot weather is playing havoc with burglars. A jail inmate says, explaining it thus:

"The best time to rob a house is in the early morning hours when people usually sleep the soundest. In weather like this people don't sleep. They roll and toss and walk around the house until it gets plumb unheathy for us."

**Bee Bumps Bumpus' Ball.**

Logansport, Ind.—Roy Bumpus credits a honey bee with an assist at the number 4 hole of the Municipal golf course.

Bumpus' putt for a par hung on the rim of the cup until the bee alighted on the ball, giving it the necessary impetus to fall into the cup.

**Help! Help!**

Spokane, Wash.—Bernice, the barmaid stepped up to the tap in a beer parlor to "draw one", but no beer issued forth—only cries of "help!"

In a refrigerator in the basement, Bernice found Charlie the barman. The refrigerator door had slammed shut as Charlie was connecting a new keg. He disconnected the beer pipe and yodelled up the tubing for help.

**When England Was Bombed**

During the four years of the World war about fifty tons of high explosives were discharged over England by the Central powers, causing the loss of some 3,000 lives and a billion dollars of damage.

### BUY LABELED SPRAYS AND DUSTS IS ADVICE OF STATION

Station, July 19—Officials of the State Experiment Station here, charged under the agricultural law and the criminal inspection of highways and inspectors are urging farmers who buy spray and dust materials to confine their purchases to products that are fully labeled in compliance with the terms of the law. The intent of the law is to protect the farmer against misrepresentation and to provide him with complete information on the label, say the station authorities, adding that some farmers in the state are either ignorant of the law or have neglected to read its requirements.

Quoting from the insecticide law, they point out that "no person, firm, association, or corporation shall sell, offer for sale, or expose for sale any insecticide or fungicide unless the same is labeled or branded with the name and address of the manufacturer thereof and a statement which shall set forth so near as may be the percentages and chemical composition of all essential substances or ingredients." The label is the manufacturer's guarantee of his product and is the buyer's protection against obtaining material of doubtful composition and quality, say the officials. Tests in the station laboratory serve as a check on the statements on the label.

Fruit and vegetable growers have found it advisable to use only those products that have proved their worth in combating insect pests and plant diseases; and with the rapid increase in the number of new materials and combinations on the market, it behooves the buyer to examine carefully the label to make certain that it contains the kind and amount of active ingredient that will give the protection sought, it is said. The station will publish the results of its tests from time to time in order to keep the purchaser informed on the character of the materials put out by various manufacturers. In the meantime, the station authorities urge every buyer to be his own inspector by reading the information on the label and by declining to buy unlabeled insecticides and fungicides.

### Confucianism

It is incorrect to refer to the teachings of the great Chinese philosopher as a religion, asserts G. H. Turner in Kansas City Times. Confucius never assigned to himself the role of a religious leader. In fact, as regards religion, to his followers he gave this advice: "Respect the gods, but have as little as possible to do with them." His was a system of philosophy and conduct, and his interest was in practical morality. The five virtues that he extolled were kindness, integrity, politeness, truthfulness, and sagacity.

### Insects Help Make Shellac

"Lac," a transparent, glass-like substance used in the making of shellac, is "manufactured" by small insects which swarm over certain trees in the tropics. The glandular excretion of the insects deposited on the twigs is one of the ingredients of shellac, and is also used in the manufacturing of billiard balls, poker chips and phonograph records.

### PORT EWEY

Port Ewey, July 19—The Rev. Edgar F. Singer, director of the Christian Association of Western Kentucky, Middletown, Tenn., was a Sunday guest of the Rev. and Mrs. J. Theodore Legg at the Methodist Episcopal parsonage.

The Rev. and Mrs. J. T. Legg, who moved to Mt. Greylock and Quebecky Lake, summer home of the Rev. F. H. Leming, pastor of Trinity M. E. Church at Kingston, Monday, have returned to their home on Main street.

A number of summer boarders are being entertained at Crystal Farm. The Methodist Church soft ball team was accompanied to Mass. Kingston by a number of rooters Wednesday evening, where they defeated the Earl Kingston Methodist Church team.

Albert E. Legg, D. D., and Mrs. Legg are visiting at the home of their son and wife, the Rev. and Mrs. J. Theodore Legg. Dr. Legg will preach at the union service in the M. E. Church next Sunday morning.

A food sale for the benefit of the Ladies Aid Society of the M. E. Church will be held on Mrs. Martha Beaver's lawn at 3 o'clock Saturday afternoon.

Choir practice will be held in the Methodist Church this evening. The Dorcas Society will hold a lawn festival on the Reformed Church lawn, August 9. There will be an entertainment and plenty of good things to eat.

Albert Wandrus, who is staying at Mr. and Mrs. Henry Van Aken's home, spent a few days recently in New York city.

### STONE BRIDGE

Stone Bridge, July 19—About 40 people attended the Grange picnic at Stone Bridge. The picnic was held at the home of the Grange. The Rev. and Mrs. J. Theodore Legg were present. The picnic was a success.

The Ladies Aid of the Reformed Church will serve a cafeteria supper in the basement of the church on Thursday evening, July 20. The menu of fare includes cold boiled ham, creamed potatoes, chicken salad, deviled egg salad, hot rolls, cottage cheese, pickles, homemade ice cream, cake, fruit punch and coffee.

An ankle injury, incurred at the Grange picnic Monday, is keeping Anna Service at home for a few days.

Preston Hasbrouck of New York is spending his vacation with his parents, Mr. and Mrs. William Hasbrouck.

Mr. and Mrs. Lester Roosa and their two children have taken the Frank Vandemark cottage on Cooper street for the summer. Mr. Roosa, who has been teaching at White Plains, will teach at Tarrytown next year.

Miss Margaret Donald of Edinburgh, Scotland, was the guest of Miss Millie Beatty recently. The girls were entertained at dinner and cards at the home of Miss Beatty's brother, Alvin, and Mrs. Beatty, of New Palz. They also enjoyed a picnic with Raymond Lawlor and Alex. Hoyer of Germantown and Fred and Maude Wilklow.

## WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pop...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent urination, passing water every 15 minutes, burning and discomfort, the 15 miles of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, numbness, swollen feet and ankles, rheumatic pains and clams. If kidneys don't empty 4 times every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS.

Doan's Pills...which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 miles of kidney tubes. But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS...the old reliable relief that contain no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

## THROUGH A Woman's Eyes

By JEAN NEWTON

### A GARDEN OF CONTEMPLATION

"THEIR peace—their tranquility in the face of anything—it is for that I envy the Japanese. Two people were talking who had just returned from travels in the East, and both spoke at once of the same quality, that imperceptible calm which seems to give the Oriental a definite power over life. Something I had read on Japanese life immediately came to my mind as indicating one source perhaps of this quality that Westerners envy and would so gladly emulate. That is the Japanese garden. The average small house has one—a beautiful cultivated little space so walled in from without that it gives the occupants of the little house a refuge of charm and beauty that takes them at once away from the teeming life of the city of which they are a part.

Such a garden is a part of the lives of these people. A typical business man with a westernized office and a thriving business in bamboo may in business hours be no less "hard-boiled" than his American counterpart, but once within the sanctuary of his house, he becomes something of a poet and a mystic. The answer to the obvious question "How?" lies partly in his garden. The words of such an average business man have been preserved for us by an American observer of Japanese life.

"I go into my garden daily for a quiet hour, for there I become as one with nature, as it were. My garden and I have long been bosom friends. There is something in its quiet beauty, its simple and natural purity, its fulfilling of a plan and a purpose, its perfect growth, in its tranquility. All the virtues that I cannot find elsewhere or in human companionship, my garden gives me. I come here to solve all my problems. It is my garden of contemplation."

A garden of contemplation—loved, not for its size, not for its show, not for its prize-winning plants or shrubs but for its peace and restfulness, for the tranquil spirit of nature which it manifests.

It may be in gardens that we of this hectic, turbulent time and place can find the secret of serenity for which those of us who have observed them envy the Japanese.

### Nomination News Delayed

Here is an incident illustrative of the important role improved means of communication have played in unifying our nation, cites G. R. Turner in the Kansas City Times. In 1848 the Whigs nominated Gen. Zachary Taylor as their candidate for President. To the general, who at the time was living on a farm in Louisiana, the chairman of the convention immediately dispatched a letter notifying him of his nomination. But in those times postage was paid by the person receiving a letter, and the general, tired of paying postage on fan mail, refused to accept the large bundle in which the chairman's letter was inclosed. Two days later, thinking that the bundle might have contained important information, he asked the postmaster to return it. But the postmaster in the meantime had marked "undelivered" the chairman's letter and returned it to Washington. Thus it was that a month elapsed before the general was able to gain possession of the letter and learn of his nomination.

### The "Silver Spoon" Saying

Everybody has heard the saying, "he was born with a silver spoon in his mouth" but few know anything of its origin. It dates back to the time of the Tudor and Stuart reigns in England when apostle spoons were given as christening presents. These spoons, which were made with an image of one of the apostles on the end of the handle, were very expensive and with in the reach of only the wealthiest families. This meant that only the children of the rich would receive such christening presents—hence the saying.—Pathfinder Magazine.

### Birds' Beaks

Birds have beaks well suited for the work they are to do. Ducks have scooping beaks. Hawks and birds of prey have tearing beaks. Herons and storks have spearing beaks. Woodpeckers have chiseling beaks. Sparrows and finches have seed-eating beaks. Robins and thrushes have insect-eating beaks. Swallows and swifts have snapper beaks. Owls have gleaming beaks.

## On The Radio Day By Day

H. C. E. BUTTERFIELD.  
Time is Eastern Daylight.

# OFFICE CAT

By Junius

In every community there is a man who will cheer anything.

**The Vill Gruff**  
The big bad wolf looked at my door.  
But I don't think he'll be back any more.  
I gave him a bottle of some whisky blend.  
And I imagine that will be his end.

Judge—I understand that you prefer charges against this man.  
Plaintiff: No sir, I prefer cash.  
That's why I had him brought here.

Some things that seem bound to be so when first presented, upon investigation, appear very, very foolish.

A lot of fellows who complain about their boss being dumb would be out of jobs if the boss were any smarter.

Girl—Shall we have a friendly game of cards, dear?  
Her Friend—No, let's play bridge.

The nice thing about installment plans is that a young couple can feather their nest with a little down.

The man who really does as well as he knows how is perhaps not as numerous as most people think.

Barbara—Susanna is thinking about going blonde. She says boys are crazy about them.

Dorothea—She's always been dying for a man.

Learn to enjoy the beauty at hand—the sky, the trees, the flowers, the song of birds, running water, groves of trees—and all nature.

Man—I understand that Mr. P. started in life by borrowing \$500. You must admire a man with courage like that.

Neighbor—Humph! What about the man who lent it to him?

Man—Your wife used to be so nervous. Now she seems quite cured.

Neighbor—She is. The doctor told her nervousness was a sign of old age.

Every small boy should sell newspapers to help his biography when he becomes a great man.

Miss (stifling a yawn)—Is your watch going?  
Boy friend—Yes.  
Miss—How soon?

Success makes us intolerant of failure, and failure makes us intolerant of success.

Eager, but—The average husband is eager to gratify his wife's smallest wish, but for coats and two-seaters come under the heading of the big ones.

Severe Old Lady—Do you drink?  
Tramp—Yes—where shall we go?

The average man has but one wife to advise him. That's the reason he can never hope to become as wise as Solomon.

Youth—I've got a beastly cold in my head.

Girl Friend—Never mind, dear. Don't grumble. Even if it's only a cold, it's something.

Correct this sentence: "If I were poor and jobless," said the rich guy, "I would still denounce the government's seizure of gold."

You may lose interest in a jane if you've lost your capital.

The Moss Feature Syndicate, 808 Summit Ave., Greensboro, N. C.

STATE OF NEW YORK, COUNTY OF ULSTER—The Home Seekers' Cooperative Savings and Loan Association of the City of Kingston, N. Y., Plaintiff, against Irving Krom and Addie Krom, his wife, Henry A. Olson, Inc., Herzog Hardware and Paint Co., Inc., Kingston Coal Company, Inc., State of New York National Bank and New York Telephone Company, Defendants.  
In pursuance of a Judgment of Foreclosure and sale, made and entered in the above entitled action, bearing date the 8th day of June 1934 and entered in the Ulster County Clerk's office on the 6th day of June 1934, I, the undersigned Referee in said judgment named, will sell at public auction at the front door of the Court House in the City of Kingston, County of Ulster and State of New York, on the 21st day of July 1934, at 11 o'clock A. M. Daylight Saving Time, of that day, the following described premises:  
All that tract or parcel of land, situate in the town of Shandaken, County of Ulster and State of New York, and bounded as follows, viz: Beginning at the highway at the Charles Bushkill Creek, and runs as the meridian pointed November 1st, 1881, north fifty-three degrees west thirty-eight chains to a stake and stone; thence south twenty-nine degrees west eighteen chains and seventy-seven links to a stake and stone; thence south fifty-three degrees east forty chains to the center of said Charles Bushkill Creek; thence up the said Kill as it winds and turns to the old bridge, then up the road to the place of beginning, containing seventy-two and one-half acres more or less, hereinafter referred to as a triangular piece of land fifty links on the highway and two chains on the first run line.  
Being the same property conveyed by Robert S. Tanner and Hazel R. Tanner, his wife, to Irving Krom and Addie Krom, his wife, by deed dated May 24, 1930, and recorded in the Ulster County Clerk's office in book of deeds No. 548 at page 65.  
Dated, Kingston, N. Y., June 7th, 1934.  
ISIDOR SAMPSON, Referee

FREDERICK STEPHAN, JR., Attorney for Plaintiff, Office and P. O. Address, 20 Ferry Street, Kingston, N. Y.

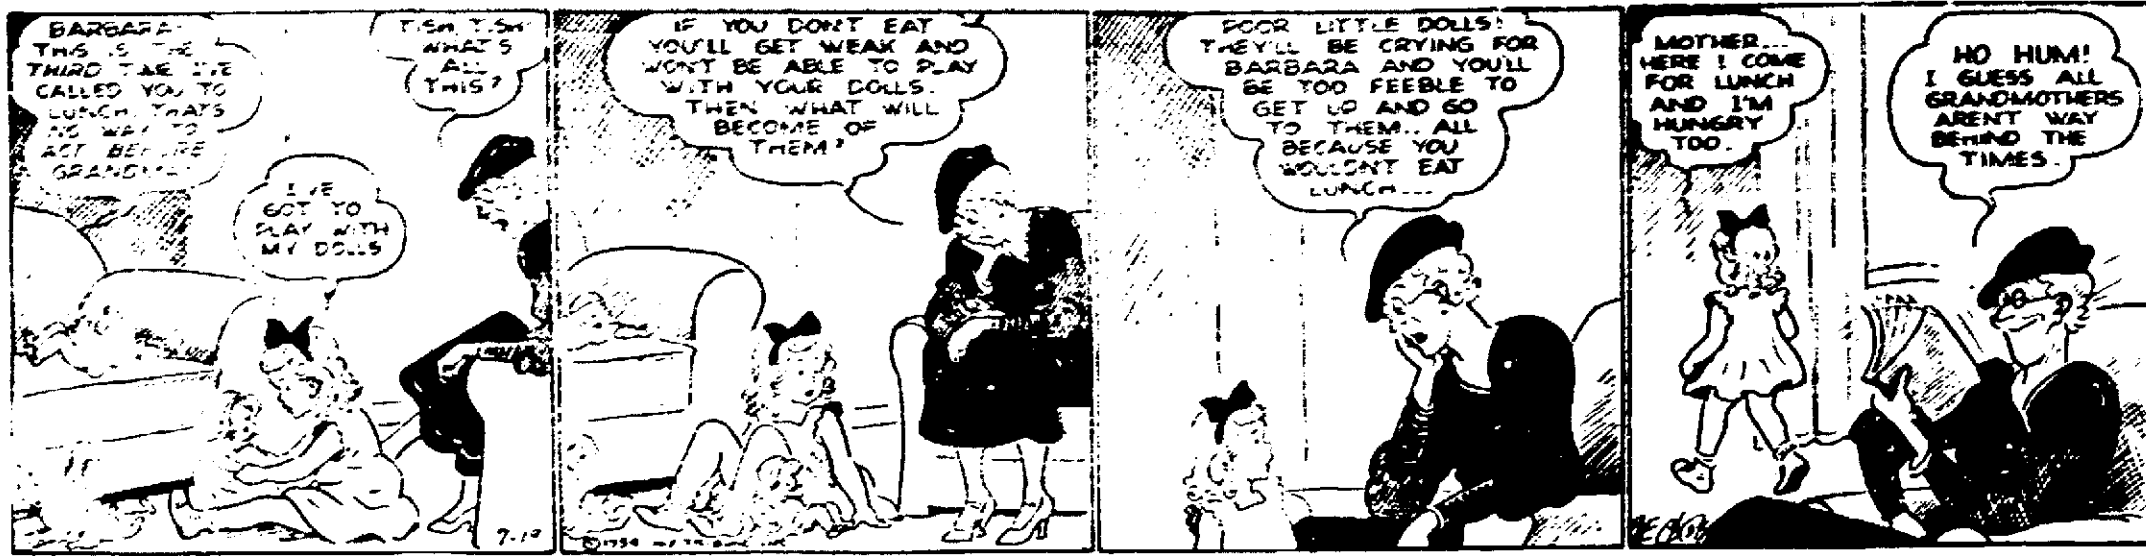

FREDERICK S. GARDINER, ESQ., Attorney for Defendants, New York Telephone Company, Office and P. O. Address, 155 State Street, Albany, New York

## GAS BUGGIES—A Salute to the "Older" Generation.

## League of Nations Palace Nears Completion

THIS is an air view of the new palace that is being erected in Geneva for the League of Nations. The buildings, now nearing completion, cover an area of approximately 15,000 yards and are about 400 yards long.

## Program Director Entertains Rotary

H. B. Stein, program director of the local Y. M. C. A. camp, entertained the members and guests of Kingston Rotary yesterday noon at the Governor Clinton with a series of readings. Mr. Stein, who is an artist in this field of entertainment, drew constant applause as he offered his audience several comical recitations, among them being "Casey at the Bat," and a sequel poem which took place 20 years after Casey won immortal glory striking out with the bases loaded.

Mr. Stein addressed the local organization on the invitation of Neeland Fuller, a member of the program committee of Rotary.

Columbia's Emeralds  
Columbia is the biggest producer of emeralds among the nations of the world. Other famous emerald mines exist in the Ural mountains, in the Salzburg Alps, in Norway and in New South Wales. Occasionally emeralds are found in the United States. Unlike the diamond, most emeralds have flaws and these flaws give individuality to the gems and make them more valuable. A flawless emerald is a rare thing.—Pathfinder Magazine.

# PRESENTING THE WIDE WORLD IN PICTURES

Copyright 1934, Wide World Photos, Inc.

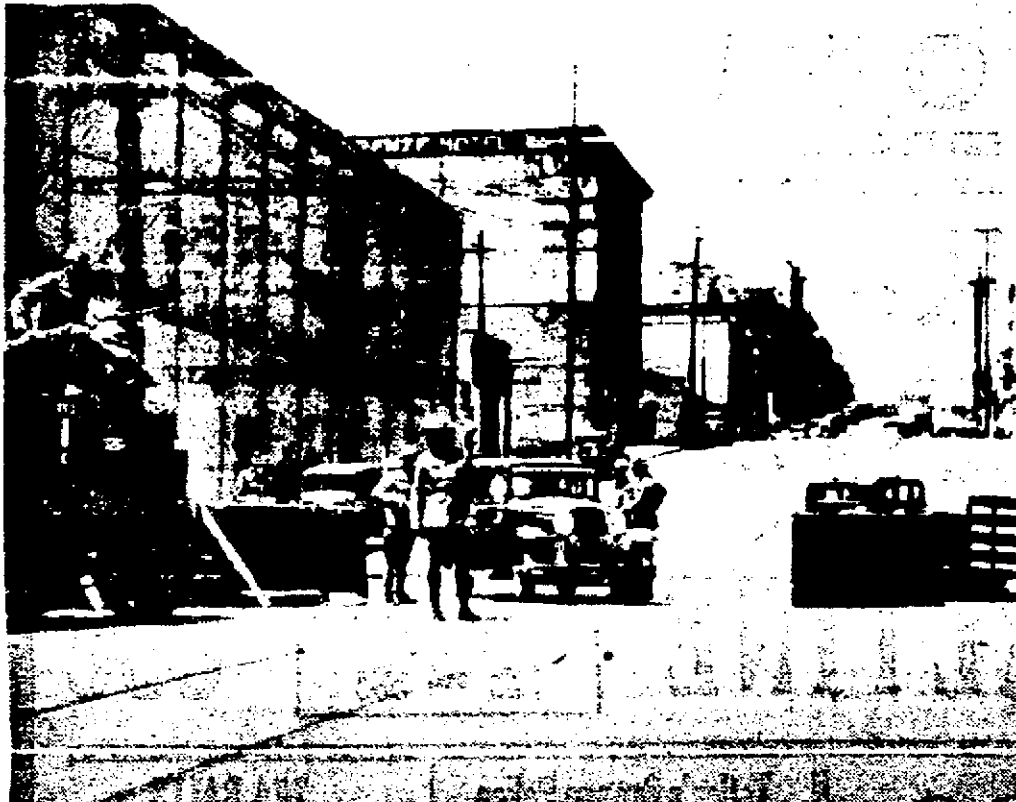

**SAN FRANCISCO WALKS TO WORK:** Scene on Market street, principal traffic artery of the city, as citizens, deprived of the usual means of transportation by the general strike, use their feet to reach their places of business, some walking many miles. Bicycles and roller skates were pressed into service and the few autos moving carried capacity loads.

**NRA HEAD DECLARING STRIKE "CIVIL WAR," JOINS IN PEACE MOVES:** General Hugh Johnson (right), after speech at Berkeley in which he stated that the strike situation was "civil war and a menace to the Government," arrives in San Francisco to participate in conferences between leaders of both sides.

**THE HUNGRY OF A CITY WAIT THEIR TURN TO EAT:** Local residents and visitors standing in line outside a restaurant in San Francisco, one of the fifty-one establishments "approved" by the strike committee where those who failed to lay in a stock of supplies must go for their meals.

**GUARDSMEN ERECT BARRICADES IN SAN FRANCISCO STREETS:** Troops behind a barrier on a street in the manufacturing district, where all visitors are halted for inspection before being allowed to enter. Almost 5,000 soldiers are on duty in the city and have set up machine-gun emplacements at strategic points.

**STRATOSPHERE FLIERS ENTERTAIN A DISTINGUISHED GUEST:** Major William E. Kepner and Captain Albert W. Stevens (right), crew of the National Geographic Society-Army Air Corps balloon, show Amelia Earhart Putnam, trans-atlantic flier, the equipment in the gondola during her visit to Rapid City to wish them luck.

**PORTLAND LABOR COUNCIL'S BOARD OF STRATEGY:** Committee, empowered by the Oregon city's unions to call a general strike, which postponed action awaiting the result of conferences with Senator Robert Wagner. Seated, left to right: R. L. Clayton, Ben Osborne, secretary of the Oregon State Federation of Labor; D. E. Nickerson and Agnes Quinn. Standing: Kelly Lee, Paul Gurske, Gust Anderson and C. T. Crane.

**FOREIGN MINISTERS OF FRANCE AND ENGLAND CONFER ON FACTS:** Louis Barthou (left), completing his tour of Europe's capitals, leaving a conference with Sir John Simon in London before returning to Paris with the assurance that the British would offer no obstacle to his system of mutual aid treaties.

**JAPANESE NAVAL MINISTER ASKS FOR BIGGER NAVY:** Admiral Maseo Osumi who has asked other members of the Japanese Cabinet to support him in his demand for an expansion of the nation's naval forces, the abrogation or revision of the 5-5-3 ratio and parity with the United States and Great Britain at the coming Naval Arms Conference.

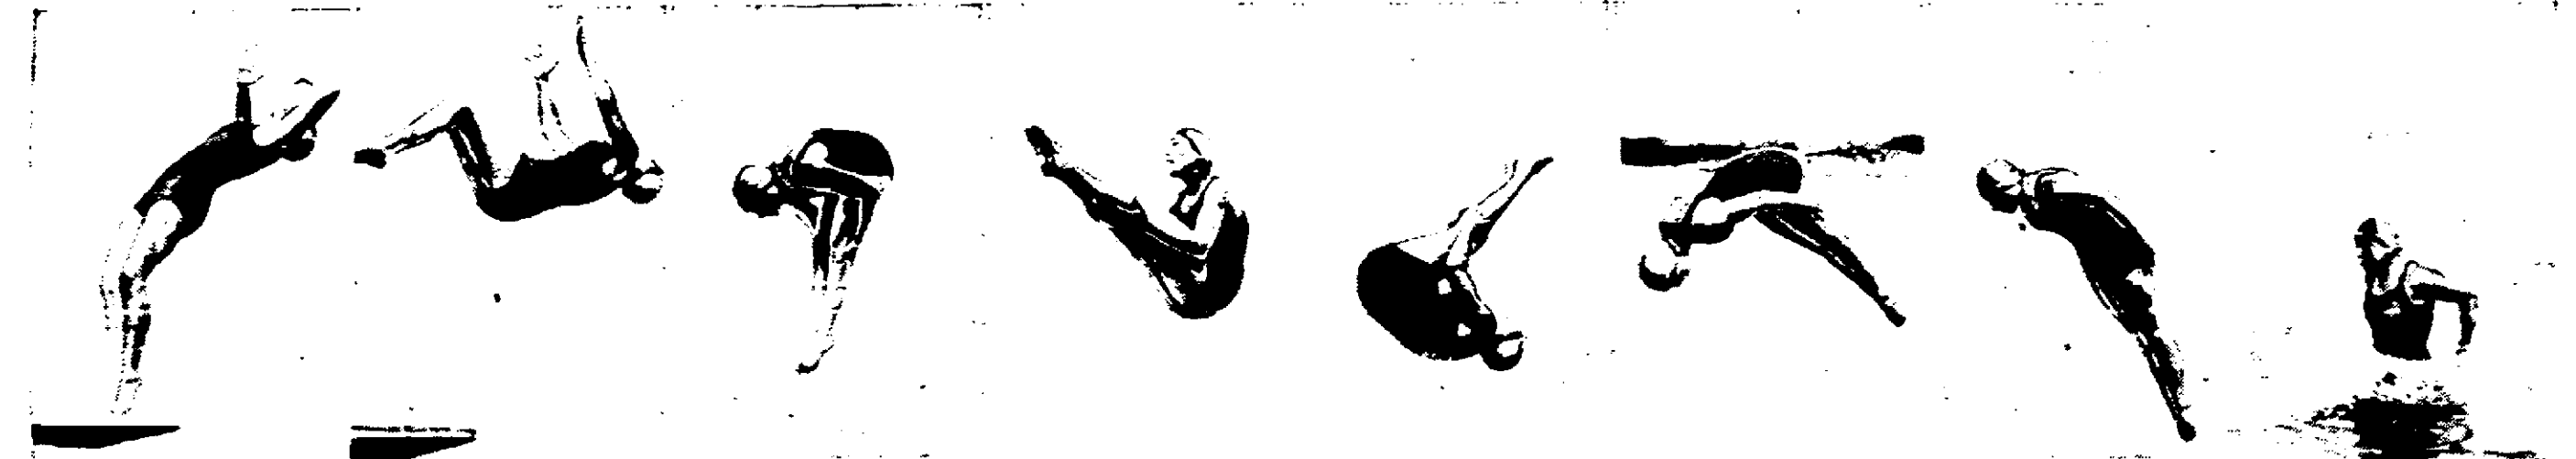

**A MERMAID OF PANAMA GREETED THE PRESIDENT:** Four-year-old Emily McGahay, star of the famous Red, White and Blue swimming troupe, receives the thanks of Mr. Roosevelt to whom she presented a bouquet during his visit to the Canal Zone.

**AMERICAN DIVER RETAINED BY BRITISH NAVY TO RECOVER TREASURE:** Charles Courtney who returned to New York from England where he made arrangements with the British Admiralty to do salvage work on the British cruiser Hampshire which sank after hitting a mine during the World War while carrying \$10,000,000 in gold to Russia.

**THE REMAINS OF AN EARLY AMERICAN CIVILIZATION:** Harry Hosack, Detroit archaeologist, views one of the 20 skeletons of Huron Indians he unearthed during excavations on the banks of the Huron River near New Boston, Mich. The warriors were buried in a wheel-shaped pattern with their feet toward the axis.

**THE CAMERA'S ANSWER TO THE UNENDING DEMAND FOR SPEED:** A specially constructed high-speed continuous-action camera, operating at a speed of a 3,000th of a second, records the various stages in a double back somersault made by Miss Janice Lifson of the Women's Swimming Association, Metropolitan 10-foot springboard diving champion. The series was made as

she performed in the senior event, which she won, at the Metropolitan A.A.U. titular meet at Jones Beach, N. Y. The first two exposures show the start of the dive; the next three, the completion of the first somersault and the start of the second; the last three, the diver finishing the second somersault and striking the water.

## Grocery Code to Get Overhauling

## Recover \$10 from Gypsy Caravan

After six months of operation in the Kingston area, the Food Distributors' Code Authority has today begun a campaign to get the Code overhauled. The Code, which was adopted by the National Food and Grocery Distributors' Code Authority in 1929, is a set of rules governing the sale of food and grocery products. It is designed to protect the consumer and to ensure fair competition among dealers. The Kingston Code Authority has been working to enforce the Code, but it has found that many dealers are not following the rules. It has therefore decided to ask the National Authority to revise the Code to make it more effective. The Kingston Code Authority has also been successful in recovering \$10 from a gypsy caravan that had been operating in the area. The caravan had been selling food and grocery products without a license, and the Kingston Code Authority had seized the goods. The National Authority has now ruled in favor of the Kingston Code Authority, and the \$10 has been returned to it.

The Kingston Code Authority has also been successful in recovering \$10 from a gypsy caravan that had been operating in the area. The caravan had been selling food and grocery products without a license, and the Kingston Code Authority had seized the goods. The National Authority has now ruled in favor of the Kingston Code Authority, and the \$10 has been returned to it.

The caravan had been selling food and grocery products without a license, and the Kingston Code Authority had seized the goods. The National Authority has now ruled in favor of the Kingston Code Authority, and the \$10 has been returned to it.

Deputy sheriff and Troopers were today again Wednesday evening tracking the Blue Hawk and gypsies against whom complaints have been made. The gypsies were seen leaving from Kingston, where they had been operating for some time. They were seen leaving in a caravan, and they were seen carrying with them a large amount of food and grocery products. The Kingston Code Authority has been successful in recovering \$10 from the gypsies, and it has also been successful in recovering \$10 from a gypsy caravan that had been operating in the area. The Kingston Code Authority has also been successful in recovering \$10 from a gypsy caravan that had been operating in the area. ## RUPPERT ADVERTISING STUNT ATTRACTED ATTENTION HERE

A large seaplane buzzed over Kingston and vicinity Wednesday afternoon and from the huge plane flew a large streamer of huge letters which read "Jacob Rupert Beer—Mellow With Age." The advertising stunt was something new and attracted attention. The huge letter sign was towed some distance behind the plane and stood out clear and plain against the clear sky. Many speculated as to how the letters were kept in their upright position so as to be readable from the ground. Wind cones attached to the end of the streamer kept the sign extended.

"No other electric refrigerator  
has the Super Freezer... that's why

Ours is a Frigidaire '34"

● Frigidaire's Super Freezer is superior to the freezing unit of other refrigerators because of a combination of three major features.

It has automatic ice tray release... the trays slide out of the freezer at a finger touch!

It turns itself on—automatically—when defrosting is completed!

And, the freezer is centrally located... a feature which not only provides room on both

sides of the freezing unit for tall bottles, but which helps account for the fact that the entire food compartment of the Frigidaire '34

has a uniformly cold temperature! The Frigidaire '34 has many additional, fine features too. There are models with adjustable shelves; Lifetime Porcelain inside and out; the Frigidaire Servashelf and—come in and see for yourself! There's a model for every size of family and purse.

HERE IS A FRIGIDAIRE THAT USES LESS CURRENT THAN ONE ORDINARY LAMP BULB—LESS THAN ANY OTHER MAKE OF REFRIGERATOR

Model Number 454

LIVE BUSINESS MEN ADVERTISE IN THE FREEMAN

### Three New Questions at Special Session

Governor Expected To Open Way For Action On Proposals at Special Legislative Session.

Albany, N. Y., July 13.—Governor Lehman is expected to open the way for action at the special session of the legislature on at least three new questions:

(1) Permitting New York city to levy a special tax for unemployment relief and earmark the returns for this purpose.

(2) Insuring the Democratic legislative committee against legal battles in its investigation of public utilities.

(3) Removing legal difficulties which are making it impossible for some municipalities to make full use of PWA funds.

The first of these questions was brought before the Governor by Mayor LaGuardia, who said the city's unemployment relief funds were running low. Although Mr. Lehman did not comment on the mayor's request, he indicated he probably would send a message to the legislature either this week or next.

The need for legislation to guard the utilities investigation against delay was brought up at a meeting of the Democratic committee yesterday.

A bill is being prepared to remove any doubt as to the powers of the committee to function when the legislature is not in session. Another measure will make certain that the committee would have full power to act after January 1 when a new legislature will be in existence. The members of the committee, in the event they are not reelected, would be permitted to continue until the legislature replaced them.

The Governor was lined up with Former Governor Smith and the New York city charter revision commission in their protest against amendments which they contend may emasculate proposed county reform for the city.

Assemblyman Abbott Low Moffat, New York Republican, introduced a series of amendments to the charter commission's bill yesterday. One would restore to the appellate division, resident in New York city, the right to appoint the county clerks. The measure originally had this provision, but was amended to permit the clerk to be appointed by the resident supreme court justices and the county judges.

No action on any of the measures before the legislature was expected until next week.

### LOCAL VETERANARIAN JOIN INTERNATIONAL ORGANIZATION

Dr. Philip Foley has received his certificate of membership in the 12th International Veterinary Congress which will meet in New York city August 13 to 18.

The International Veterinary Congress is an organization approximately 75 years old and its membership includes the leading veterinarians of 65 countries. The meeting in New York next month will be the first ever held in America. All previous sessions of this organization have been held in Europe, the most recent having met in London, England, in 1930.

President Roosevelt has consented to act as patron for the 12th International Veterinary Congress and Secretary of Agriculture Wallace will officially open the congress. The program will include about 60 discussions by the leading veterinarians of the whole world. A portion of the program will be broadcast on the U. S. Department of Agriculture Farm and Home radio program. The broadcasts will be 1:50 to 2:20 August 14, and at the same hour on Thursday, August 16. This program may be heard over the NBC network.

### MODENA

Modena, July 13.—Miss Grace Clinton of New Paltz, spent Sunday at the home of her parents, Mr. and Mrs. James D. Clinton.

Mr. and Mrs. Jacob Williams and family, who have been spending a few weeks with relatives at California, returned home on Saturday.

Mr. and Mrs. James D. Clinton, George and Grace Clinton of New Paltz, were callers at the home of Mr. and Mrs. Sidney Wells at Walden on Sunday.

Albert Coy of Gardiner was a business caller in town on Tuesday. Emerson Buchanan of Brooklyn, is spending the summer with his grandmother, Mrs. Sarah Paltridge.

Mrs. Fred Bernard was a shopper at Newburgh on Saturday.

Mr. and Mrs. Oscar Smith entertained over the week-end their son Eber, of Danville, Pa., William Fetter of Shamokin, Pa., Helen Hockman of Maudsall, Pa., Roxie Montague of Muncy, Pa. and Mrs. Blanche Boyer of Danville, Pa.

Miss Jessie Dubois, who has been spending some time at Long Island, has returned home.

### Romans Brought Cats

Cats were introduced into England by the Romans, says a British investigator, who adds that the granaries of the Saxons were guarded against rodents by weasels.

### CLINTONDALE

Clintondale, July 13.—Mr. and Mrs. Raymond Sutton have returned to their newly furnished home on Maple avenue after a wedding trip to Canada and points north. Mrs. Sutton was formerly Miss Vera Vester.

Mr. and Mrs. Harold Elting have returned from their wedding trip and are spending some time in Katonah with the bride's parents. Mr. and Mrs. William B. Mead, while Mr. Elting is attending the summer school session of the University of New York. In September the young couple will make their home in Port Jefferson Station where they are members of the faculty of the Port Jefferson Station-Terrville School.

Mrs. Elting was formerly Miss Dorothy Mead of Katonah, and Mrs. Elting is the son of Mrs. Lillian Elting of Maple avenue, this village.

Mr. and Mrs. Clifford Burden and children of Mr. Burden are spending some time with Mrs. Burden's mother, Mrs. Cornelia Williamson on Main street.

August Bolter has returned to his home here after visiting in New Rochelle at the home of his son-in-law and daughter, Mrs. Martin Faas, Jr.

The regular meeting of the Allied Communities Fire Co. will be held on Monday evening in the firehouse with George Conklin, president, presiding.

Mr. and Mrs. Arthur DeWitt are entertaining Mrs. Kitty Pohlman and son, Harry, of New Jersey for a few weeks.

R. J. Wager and Myron Shults of Modena were business callers in Clintondale on Saturday evening.

The regular meeting of the prayer and friendship circle of the Clintondale Methodist Church will be held on Thursday evening in the Sunday School rooms.

About 25 persons motored to Kingston on Monday and Newburgh on Tuesday and attended the Gorman Brothers' circus held there.

Mrs. Lillian Elting spent Sunday at the home of Mr. and Mrs. James Heaton.

Mr. and Mrs. Egbert Van Wageningen have returned to their home in Newark after visiting relatives and friends here for a few days.

Mr. and Mrs. J. D. Palmatier entertained Mr. and Mrs. Theron Smalley and son, Harold, and Mrs. Jessie Smalley from Leetown on Sunday at their home here.

Mrs. Lawrence P. Gaffney entertained on Thursday at her home here Mrs. Albert Marks and children and Mrs. Frank Hannigan of Marlborough.

Mr. and Mrs. John Powers and son, John, Jr., spent Monday with relatives here.

Mr. and Mrs. James Hull were callers in Kingston on Friday.

The annual clam bake of the Clintondale Friends Church will be held in the Grange Hall on Thursday, July 26. At this time the bakes will be served at 6 and 8 o'clock.

Tickets are nominally priced and may be obtained from a committee in charge of Mrs. Jason Auchmoody. The bakes will be prepared as is the usual custom by Louis Covert. The dining room will be in charge of Mrs. E. Burdette Minard and Mrs. John Schoonmaker, who will appoint their helpers.

The kitchen helpers are Mrs. Winfield Jenkins, Mrs. Gerow Thomas. Coffee will be taken care of by Mrs. Harry Sutton, Mrs. William Sharp and Mrs. William Minard, while the other committees are Mrs. William Minard and Mrs. Tracey Coutant, meat and fish; Mrs. Clayton Jenkins vegetables; cheese cloth, Mrs. Alice Van Sickle, and advertising, Mrs. Harry Sutton, with Mrs. James Hull in charge of the chickens.

### WALKER VALLEY.

Walker Valley, July 13.—Mrs. M. Mulhern of Brooklyn spent the week-end with her sister, Mrs. L. Strike.

Mr. and Mrs. George Leppert and daughter, June, of Lyndhurst, N. J., spent the week-end with their parents, Mr. and Mrs. J. C. Depew, also Miss Pearl Scott of Highland.

Anita Vale of Long Island is spending the summer with Mr. and Mrs. Henry Evans.

On August 2 the firemen, assisted by the ladies' auxiliary will hold a fair.

Mrs. Ida Wurtz and brother, Tony Krattke, of New York city are stopping for a while at Evans Villa.

Mr. and Mrs. William Decker of Bogota, N. J. spent Sunday afternoon with their niece, Mrs. F. Marshall.

Mrs. George Balzer and sons, George, Charles and Thomas, have returned to their home in East Orange after spending two weeks here.

Gilbert Cox, Mrs. N. Gray and Mrs. William Stathers called on their cousin, Mrs. F. Marshall, Monday.

The Ladies' Aid of the M. E. Church will hold their bazaar on August 8.

Mrs. Murphy of Woodhaven is visiting her daughter, Mrs. William Burke, at their summer bungalow.

Gertrude Carlin has returned to her home here after spending two weeks with her cousin, Mrs. J. McGuire in Brooklyn.

Mrs. Mary Scott has bought an electric pump and has the water put in her house.

Mrs. T. Tomlinson is spending a few days in Richmond Hill.

Adele Cox of Walden returned to her grandparents, Mr. and Mrs. H. Evans, Monday evening after spending two weeks with her parents, Mr. and Mrs. James Cox, and sister, Joyce.

Mrs. Thalia Barr, wife of a Spanish minister, who has the Spanish camp near Pleasant Valley, and a number of children attended Sunday School in the M. E. Church and expect to give some special singing Sunday afternoon and also an entertainment some evening in the near future.

### Grant's Memoirs

In the latter years of his life—in fact while in the shadow of death—U. S. Grant composed his "Memoirs," principally for the purpose of paying borrowed money and of providing for his family. The published work eventually brought Mrs. Grant nearly one-half million dollars, the greatest success a single book up to that time had realized.

## CAN 4,000,000 Jam Makers BE WRONG?

CERTO GIVES YOU WONDERFUL JELLY, TOO...AND SAVES YOU MONEY AND TROUBLE, AS WELL!

4,000,000 women are making all their jams these days with Certo—the time-saving, money-saving aid for jam and jelly making—Why not try it now?

WHAT a thrill to have your cupboard groaning with delicious jams and jellies! Blackberry, peach, apricot, raspberry... all so easy to make with Certo!

Why not get your berries, fruits, sugar and Certo now? Then use the prize-winning recipes you get with every bottle of Certo to put up a good supply of the most wonderful jam and jelly you ever tasted!

Most of the State Fair Champions throughout the country use this marvelous aid to jam and jelly making to win their prizes!

They would tell you what Certo does!... How you can expect half again more glasses from the same amount of fruit... How you can finish your jam or jelly in one third the usual time... And how you get a marvelous extra flavor—the full flavor of the fresh, ripe fruit itself!

With Certo you boil jams or jellies only a few minutes. The fruit juice does not boil away—you never get that "boiled-down" taste that comes with long, tedious boiling. You save lots of time and trouble, too.

Certo—the pure fruit pectin—is sold by all grocers. It is a product of General Foods.

### HOW TO MAKE THE BEST RASPBERRY JAM

4 cups (2 lbs.) crushed berries  
5/8 cups (2 1/2 lbs.) sugar  
1/4 cup Certo  
Use only fully ripe berries. Measure crushed berries and sugar into large kettle, mix, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in Certo. Then stir and skim by turns for just 1 minute to cool slightly, to prevent foaming fruit. Pour quickly. Cover bot jam with film of hot paraffin; when jam is cold, cover with 1/4 inch of hot paraffin. Roll glass to spread paraffin on sides. For a soft, very slow set use 1/2 cup less sugar. Requires about 2 quarts berries. Makes 9 to 10 eight-ounce glasses.

### FRUIT BARGAINS—AT YOUR GROCER'S NOW

Certo lets you use fruits at their ripest and best—and when most economical. Attached to every Certo bottle is a booklet of 60 prize-winning recipes for making these delicious jams and jellies.

### YOUR 100% GUARANTEE

1. GUARANTEED BY PRODUCT You get the longer mileage of Triple\* TEMPERED RUBBER, the added protection of our strongest cords, select beads, and non-squeezing non-skid tread... Plus Values created by loyal, skilled workmen.

2. GUARANTEED BY PERFORMANCE U.S. Royals have proved their value to millions of car drivers, and as standard equipment with the makers of a big majority of all American cars.

3. GUARANTEED IN WRITING A written guarantee protecting your tire investment for twelve full months (in commercial service, six months).

Here's the greatest combination ever developed for non-skid safety... COG-WHEEL TREAD and heat-resisting Triple\* TEMPERED RUBBER! The deep-ribbed, square-faced rubber blocks dig in and hold fast! The tough Triple\* TEMPERED RUBBER keeps them safely gripping the road for thousands of more miles. The extra safety and extra mileage cost you no more.

# Yankees Lose Again, Ruth Hurt; Giants Win, Increase Lead To 3

By HUGH S. FULLERTON, JR.

Associated Press Sports Writer

Things in general and those in particular which concern the American League pennant race appear to be getting very bad for the Yankees. All their bad luck has been rather dismal this week and the current tour of the west, now barely over a week old, has cost them the league lead and the services of their biggest drawing card, Babe Ruth.

After losing that game in Detroit, Joe McCarthy's club took another nose dive in Cleveland, dropping a pair of decisions and winding up 2½ games behind after a 15-14 trimming yesterday. And the worst blow of all came in the third inning of that slugfest when Ruth was struck on the leg by a hot drive off Lou Gehrig's bat. He suffered a severe contusion which is expected to keep him inactive for two weeks.

The Tigers took advantage of this opportunity to increase their lead by beating Washington 4 to 2 when Tommy Bridges pitched seven-hit ball despite seven passes while the Detroit batters hit Earl Whitehill hard and often.

The third-place Red Sox continued their pursuit of the leaders by humbling the Pale Hose of Chicago 16 to 3 as they opened with a fine run burst in the first inning.

Jimmie Foxx clouted his 28th circuit swat in St. Louis to tie his teammate, Bob Johnson, for the major league lead, but the Athletics still couldn't beat the Browns, going down 3-2 before Rump Hadley's five-hit fling.

The National League's "crucial" series between the Giants and the Cubs wound up in something of an anti-climax as New York won the final game 8 to 6 and increased its lead to three games, one more than it held at the start of the five-game set. A six run outburst in the third, which included Mel Ott's 22nd homer with one aboard, settled the game.

The Braves took another nasty crack at Pittsburgh's hopes by beating the Pirates in both games of a doubleheader. They won the first duel 3-1, then smacked Eddie Hollier and a couple of successors for a 7-5 victory.

The Reds celebrated their release from Philadelphia by winning their first game in Baker Bowl this year, 9 to 8. The Cardinals drew a bead on young Johnny Babe and belted out a 5 to 3 victory over the Dodgers to keep Brooklyn in seventh place.

## Major League LEADERS

(By The Associated Press.)

National League	
Hitting—Terry, Giants, .368; P. Waner, Pirates, .356.	
Scoring—Medwick, Cardinals, 73; Vaughan, Pirates, 72.	
Hits—Medwick, Cardinals, 124; Allen, Phillies, 122.	
Runs batted in—Ott, Giants, 96; Berger, Braves, Collins, Cardinals, and Shurr, Pirates, 71 each.	
Doubles—Allen, Phillies, 27; Medwick and Collins, Cardinals, and Urbanski, Braves, 25 each.	
Triples—Medwick and Collins, Cardinals, 9 each.	
Home runs—Ott, Giants, 22; Collins, Cardinals, and Berger, Braves, 20 each.	
Stolen bases—Martin, Cardinals, 13; Bartell, Phillies, 11.	
Pitchers—J. Dean, Cardinals, 16-3; Frankhouse, Braves, 14-4.	
American League	
Hitting—Manush, Senators, .397; Gehrig, Tigers, .381.	
Scoring—Gehrig, Tigers, 84; Werber, Red Sox, 82.	
Runs batted in—Gehrig, Yankees, 95; Cronin, Senators, 79.	
Hits—Manush, Senators, 140; Gehrig, Tigers, 123.	
Doubles—Manush, Senators, and Greenberg, Tigers, 33 each.	
Triples—Manush, Senators, and Chapman, Yankees, 10 each.	
Home runs—Johnson and Fox, Athletics, 28 each.	
Stolen bases—Werber, Red Sox, 22; Fox, Tigers, 19.	
Pitchers—Gomes, Yankees, 14-3; Marberry, Tigers, 11-3.	

## Yesterday's Stars

By The Associated Press

Earl Averill, Indians—Batted in four runs including winning score in game with Yankees.

Tommy Bridges, Tigers—Checked Senators with seven hits.

Harlan Pool, Reds—His single accounted for winning run against Phillies.

Irving Hadley, Browns—Pitched five hit game against Athletics, holding A's scoreless until ninth.

Bill Cissell, Red Sox—Heavy hitting accounted for eight runs in rout of White Sox.

Hal Lee and Baxter Jordan, Braves—Batted effectively in Braves' doubleheader victory.

Johnny Vergez, Giants—Contributed home run and double to Giants' "crucial" triumph over Cubs.

Joe Medwick, Cardinals—Collected four hits including 18th home run.

## Milkmen Will Take On Crystal Beauty Shoppe

This evening at the Athletic Field the independent Milkmen will cross bats with the fast stepping beauty experts. A large crowd is expected to be on hand as the Milkmen need another victory to keep in the running in the Updown Industrial League, and they figure to trim the beauticians.

## Londos and George Wrestle to a Draw

Boston, July 19 (AP)—Wrestling was still without an undisputed heavyweight champion today because, judging by appearances and performances, Ed George and Jim Londos, the last of the long list of claimants, were too evenly matched.

This pair of grapplers, standard-bearers of rival factions now at peace after a long and bitter promotional warfare, entered the ring at Fenway Park last night to complete the job of putting all the mat championship pieces together.

They started grappling shortly before 11 o'clock and four hours later, when they were groggy and almost helpless, the match ended a draw. Both were unconscious at the end.

This amazing exhibition drew a crowd of 30,000 with gate receipts estimated at \$60,000.

The 29-year-old George weighed 219 and had an 18-pound advantage over the St. Louis Greek, who admits 35 years.

The match was on a best-two-out-of-three falls basis and each scored a fall early in the grueling struggle. They worked 2 hours, 12 minutes and 19 seconds for the deciding fall before the bout was declared a draw by the referee.

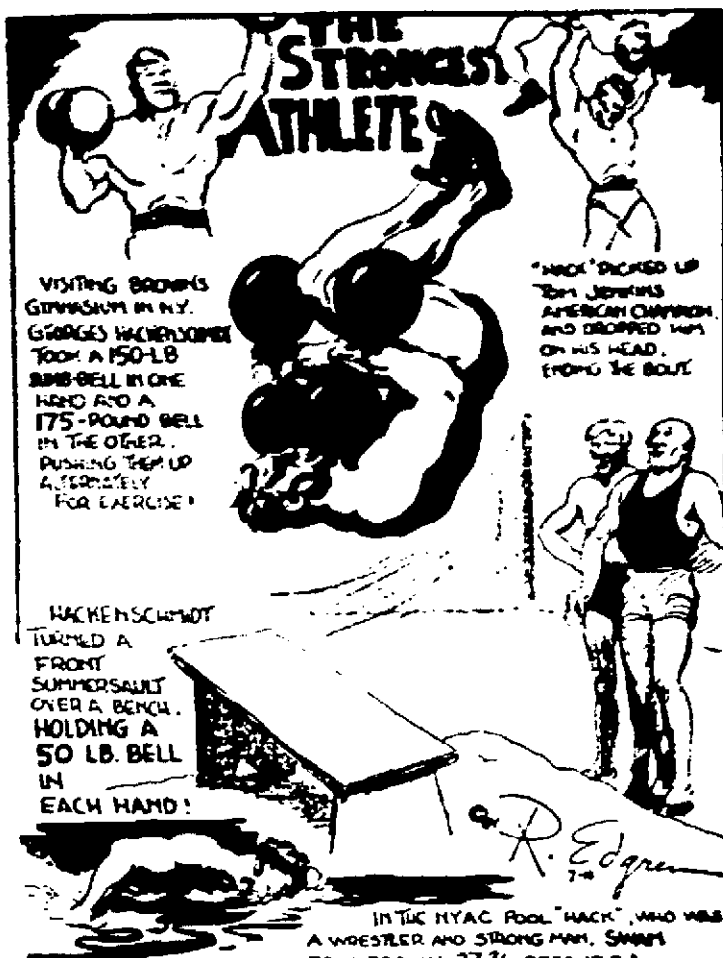

First-aid treatment was required before either could leave the ring, but neither suffered any serious injury that would prevent a return match, which will probably be staged in New York at an early date.

## Fairviews Swamp The Freeman, 18-4

On Monday night before a large crowd the Freeman Nine went down to defeat at the hands of the fast-stepping Fairviews. The Freeman moaners were hit often, and coupled with three errors, it made the going tough for the Freeman.

The Fairviews played a tight game throughout.

## Muscular Power —By R. Edgren

## The Sportlight BY GRANTLAND RICE

A Knife In the Heart.

You mark them out in street or club with dull, dejected mien; They wear the hunted, haunted look that knows life's guillotine; Their eyes are glassy in their woe, or red with bleak despair. Who walk the savage road of fate that leads through pain and care.

These are the slicers—those who have a cut upon the ball; They cannot hook, they cannot pull, they cannot score at all; In sudden dreams they see the pill career in sudden flight To form the famous Curve of Death that leads off to the right.

They've tried the open stance and shut—they've sought some famous pro— They've tried the Vardon and the V to end their bitter woe; They've tried the hip shift back and forth, with new knee action stuff, But still the ball swells to the right and settles in the rough.

They spend their days in matted grass or in the rutted sands; The driver swings, and then they have a nibble in their hands; From left to right—from left to right—the diabolic ball Picks up the poisoned curve that makes you want to end it all.

I know that cholera is no fun—that cancer is a curse, But those who slice will bet good enough that they have something worse. What gold or glory may be theirs—write this down in the book— They'd trade their name and wealth and fame for one good healthy hook!

### Famous Golf Names.

Lady Helen Brasse—Henry Topping—Sam Slicer—Ducky Pond—Harry Hook—Bunker (an old Army star)—H. L. Trapp—William Green—Hugh Driver—Jack Hazard—Jack Short—General Hooker.

### The Davis Cup.

Back in 1905 Bill Larned and Beals Wright, representing the United States, met Norman Brookes and Tony Wilding of Australia in the Davis Cup final before the challenge round, with Great Britain defending.

This took place 29 years ago. Over this week-end the United States meets Australia again in another Davis Cup final before the challenge round, where Great Britain once more is the defending champion.

This time it will be Wood, Shields, Lott and Stoefer largely against Crawford and McGrath, and from this lookout the U. S. should have the edge.

In the first turn, Lott and Stoefer should be good enough to win the doubles. In the singles, Wood and Shields should be good for two of the four matches. Crawford hasn't been up to his 1933 pace this season and McGrath is certainly no better than either Shields or Wood. Frank Shields has come a long way in the last year and Wood is not only a fine stylist and a fine tennis player, but a cool headed court general who should be at his best under pressure of this sort.

If the U. S. can slip by Australia there is almost an even chance that her team will beat Great Britain in spite of Fred Perry, the outstanding star of the last two years.

The three survivors are all well matched and this adds more than normal interest to the Davis Cup stretch.

### The Next Challenger.

Max Baer will now hang around while five contenders are thrown into the pit in the course of naming the next challenger.

The five are Primo Carnera, Steve Hamas, Art Lasky, Max Schmeling and Walter Neusel—two Germans, an Italian and two Americans.

Schmeling and Neusel provide the first elimination at an early date in Germany. This will leave the winner with Carnera, Hamas and Lasky. It wouldn't be a bad arrangement to match Hamas with Lasky and Schmeling with Carnera. The two last named entries are ex-champions, and the winner would be in for a good game against the Hamas-Lasky survivor.

These five are all well matched, but Carnera will be the hardest to beat unless the Baer cloutings do too much damage. If Schmeling can get by Neusel, which he should, the German will be another tough customer in the wake of three hard fights—something he needed before facing Baer.

There would be a ring full of punching in a Hamas-Lasky meeting, since both keep swinging and both can hit.

Baer probably won't fight again until next June. This long rest will give some challenging rival a much better chance—but the survivor will have to show more than any of the five have shown so far against a fighter as big, as strong and as hard a puncher as Baer.

### Light Horse Harry Cooper.

This has been an amazing summer for Light Horse Harry Cooper. He was the first to post the leading score at Merion, which might easily have been three or four strokes better, considering the high quality of his play.

After that he tied for first place in his next four starts—from the Western on to the St. Paul open—with some of the most spectacular golf seen in many years.

His record of 25 under par for 105 holes in the Western is still a target for all the snipers to shoot at.

(Copyright, 1934, By GRANTLAND RICE.)

## Parker Favorite in Hamilton Club Tennis

Huntington, N. Y., July 19 (AP)—Frankie Parker, who won his first eastern tennis tourney of the year at Spring Lake, N. J., last week, already has installed himself as a favorite to capture his second title in the Crescent-Hamilton Club invitation event.

The 18-year old Parker overcame the handicap of playing on a grass court for the first time this season and pulled out a 6-4, 6-2 victory over Albert Law of New York.

Today Frankie, seeded second, was listed to face Kendall Cram of Nashville, Tenn., in the round of 16. His principal rival in the tourney, Gregory Mangan of Newark, top seeded player and national indoor champion, encountered Bill Feltie after each had won a fall.

man of New York.

The rest of the program included: J. Gilbert Hall, South Orange, N. J., vs. Reginald Talmadge, New York; Wilmer Hines, Charlotte, N. C., vs. Bert Weltons, San Antonio, Tex.; Martin Burby, Miami, vs. Armand L. Bruneau, New York; Henry Prosser, Seattle, vs. Norcross Tibbey, West Orange, N. J.; Berkeley Bell, New York, vs. E. Ramey Donovan, New York; and Dr. Gene McCallum, New York, vs. E. Ralph Nardis, New York.

### WRESTLING LAST NIGHT.

(By The Associated Press)

Boston—Ed George, Java, N. Y., 219, and Jimmy Londos, St. Louis, 201, draw.

Los Angeles—Gas Sonnenberg, 256, Boston, beat Sammy Stolz, 204.

## Rescue Hook and Ladder Nine Humbles Cornell Hose, Score 9-3

### FIGHTS LAST NIGHT

By The Associated Press

Before a record gathering at Block Park last evening, the Rescue Hook and Ladder nine smacked out a 9-3 win over the Cornell Hose Co.

Joe Coughlin, granting the lead for the Hook and Ladder, was in great form. Nine Cornell men landed the evening prize, while the entire team could collect but six hits. On the other hand, Krom and Stoudt's offerings were well received by the Rescue boys, who garnered 13 safeties.

Artie Steltz was the star stick winder of the occasion. He got three hits out of four trips to the platter. In the second frame John Schneider smacked a circuit clout with two on. This made it very embarrassing for the Cornell boys, for at the end of the inning they were trailing by 6-1. In the third, the Ladder men put across two more—and another in the sixth. The Cornellists got one across in the fourth and another in the sixth, to bring their total to three.

Box score:

Cornell	
	AB R H PO A E
Stumph, 3rd	4 1 1 1 4 0
J. Hoffman, c	4 0 1 4 0 0

### BILLIARDS

In Wednesday night's game at Nick's Walt Jeghers defeated Gil Kelder 100-64. High runs: Jeghers, 14; Kelder, 13.

On Thursday night Bob Hart will take on Reuben Lewis.

## NEW TIRE SAVES LIVES . . . gives months of extra mileage, too!

Now Goodrich Silvertown Only Tire That Gives You Golden Ply Blow-Out Protection

Then odds are strong against you when you have a blow-out. Especially if you happen to be speeding at the time. The rim hits the highway. It's all over in a flash.

Today's high speeds generate terrific heat inside your tire. A blister forms and grows until sooner or later BANG! A blow-out!

### An amazing invention!

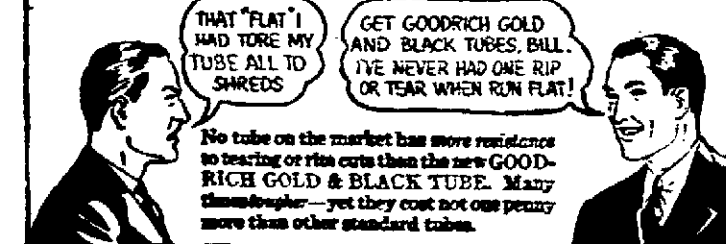

To protect you and your family, every new Goodrich Silvertown has the amazing Golden Ply invention which resists heat. Rubber and fabric don't separate. Thus blisters don't form inside the tire. The great, unseen cause of blow-outs is eliminated before it begins.

Racing daredevils tested out the Golden Ply at breakneck speeds. Tested it on the world's fastest track. Not one blow-out! Similar tires without the Golden Ply failed.

at one-third the distance the Golden Ply Silvertowns were run. Why take chances when you can be 3 times safer from blow-outs at high speeds—get months of extra mileage—at no extra cost! Goodrich Safety Silvertowns cost no more than other standard tires.

## Walter Spence to Be At Williams Lakes

World Renowned Swimmer Will Attempt To Equal Own World's Record This Week-end.

Walter Spence, one of the world's record holders in swimming, will be a guest at Williams' Lakes on this coming Saturday and Sunday.

Walter is one of the three famous Spence Brothers, all of whom will appear at the Lakes the following week. He began his career in swimming in British Guiana. From there he moved to Canada and represented that country in the Olympic games. At the present time he is an American citizen, representing the New York Athletic Club, for which he is anchor man in the free style and medley events.

Among his accomplishments are the following: 220 yard American record holder in the free style, National A. A. U. Junior 220 yard breast stroke champion, member of the 300 yard medley world's championship team, member of the Canadian Olympic swimming team, 100 yard inter-collegiate free style champion.

Besides these, Spence has equalled Johnnie Weissmuller's record of 51 seconds flat in the hundred yard. On Sunday Spence will give an exhibition at the Williams Lake 50 yard course and again attempt to equal Weissmuller's record. He will also attempt to equal his own world's record in the various other events.

This is the first time Spence has ever appeared in Ulster county, and it might be of interest to the folks to come to witness this remarkable swimmer.

Indianapolis Laid Out in 1821  
The city of Indianapolis was laid out in 1821 by Alexander Ralston from the plans of Major L'Enfant with whom Ralston was associated at the time Major L'Enfant laid the plans for Washington, D. C. The plan is a happy combination of the "spider web" of Versailles and Thomas Jefferson's plan of the federal city of regular squares. Indianapolis was incorporated as a city in 1833.

## Armour Fires Blast At Pro Golf Association

Associated Press Sports Writer.

Chicago, July 19 (AP)—Tommy Armour, the world's best golfer, fired a hot blast at the Professional Golfers' Association today for automatically exempting all Ryder Cup players and nobody else from qualifying for the annual pro championship at stake at Buffalo next week.

"The P. G. A. championship never had any dignity anyway, but its tournament at Buffalo is going to be the joke golf championship of all time," Armour said as he prepared to leave for the pro title struggle.

"All the hot shots, who broke into headlines by winning a South-Siberian, Alaska, or Nome or Podunk championship, are getting in under the exempted list—getting into a tournament labeled as a national professional championship by innuendo. Fellows like Harry Cooper, MacDonald Smith, Willie MacFarlane, Jim Barnes and myself, who have won everything in sight, must go out and qualify."

The Ryder Cup players, all exempted from qualifying are Walter Hagen, Olin Dutra, Leo Diegel, Gene Sarazen, Paul Runyan, Ed Dudley, Craig Wood, Denny Shute, Horton Smith and Bill Burke. No player can be a member of the American Ryder Cup team unless he is native born.

Armour also accused the P. G. A. officials, headed by George Jacobus, as lacking in courage.

"Last year, the South-Siberian championship winners (Ryder Cup players) set up a howl heard across the Atlantic Ocean because they were compelled to get out there with the rest of us and qualify for the championship at Milwaukee. Well, the P. G. A. letter writers ducked out of sight for a while and then surrendered. They didn't have the courage to say no, to tell them that the tournament at Buffalo and all the rest were going to be real national golf championships—championships in which every man had to start from scratch."

## Perry Will Defend U.S. Title at Forest Hills

London, July 19 (AP)—Fred Perry, Wimbledon and United States tennis champion, and F. H. D. Wilde, sixth ranking English player, today were officially nominated by the English association to compete in the United States championships at Forest Hills in September. They also will compete in other American fixtures.

Perry also will tour Australia against this winter, the association announced, accompanied by Miss Dorothy Round, the Wimbledon woman's singles champion; Miss Evelyn Dearman and Miss Nancy Lyle.

Miss Betty Nuthall, Miss Freda James and Miss Katherine Stammer previously had been nominated to compete in the American women's championships at Forest Hills in August.

Irish Challenge St. Remy.  
The Irish Block Nine of Wilbur challenges the St. Remy Nine for a game Sunday, July 22, to be played at St. Remy. Manager Lynch would like it to be a winner-take-all match.

Uptown Industrial League.  
At the Athletic Field tonight, after the game between the Milkmen and Crystal Beauty Shoppe, there will be a meeting of all the captains and managers of the Uptown Industrial League teams.

## Police Clash With Schryvers At Fair Grounds On Sunday

Well play the Schryvers at the Kingston Fair Grounds, or there won't be any game, said Sergeant James V. Simpson of the Kingston police department this morning, concerning his Blue Coats' match Sunday with the Lumbermen, which has been creating a lot of talk in baseball circles and is expected to draw an over-flow crowd.

"All this talk about changing the field of battle from the Fair Grounds to the Pan-Am diamond is something I don't understand," continued the Sergeant. "The game was originally slated for the uptown park, and when it was brought out that the field needed some work done on it to put it in shape for playing, Mayor Heiselman was consulted and agreed to have the city men make the necessary improvements. This has been done I understand, and the game will be at the Fair Grounds. The police team has no permission to go out of the city Sunday and therefore will play at the park designated first or there won't be any game. I have talked with Manager John Ashdown of the Schryvers and he has agreed on the Fair Grounds."

Both clubs will use their regular lineups. Jimmy Martin will start on the pitching mound for the Schryvers with Joe Hoffman behind the plate. Freddie Stouff will toss for the Police with Frank Sammons as his battery mate.

Starting time of the contest is 3:15 and expectations are that there will be a larger turnout on the field than any seen at a game there this year.

## Babe Ruth Injured, Out for Two Weeks

Cleveland, Ohio, July 19 (AP)—Babe Ruth lay grumbling and morose in his hotel bed today, waiting to see what his badly injured right leg will do to his fading career as a home run collector.

Dr. Edward B. Castle who took charge of the aching leg said the slugger will be out of the Yankee lineup for at least two weeks and perhaps for the rest of the season. Ruth disagreed with this diagnosis, but he stayed in bed here as the Yankees moved to Chicago.

Ruth ran into one of Lou Gehrig's sizzling grounds between first and second base in the game with the Indians here yesterday. He dropped to the ground, clutching his shin, and finally was carried from the field.

A hard blow to the Yankees who are struggling with Detroit for leadership of the American League. Ruth's injury was a tragedy to one family. Coe Livingston, 68, Kent, Ohio, merchant, died at the ball park of heart disease during the excitement of the incident.

## Shields, Crawford In Opening Match

London, July 19 (AP)—The draw for the interzone final between the United States and Australia today pitted Frank Shields, No. 1 ranking star of America, against Jack Crawford, the Australian leader and Sidney B. Wood, Jr., against young Vivian McGrath in the opening singles matches Saturday.

George M. Lott, Jr., and Lester Stofen, United States and Wimbledon doubles champions, will play Crawford and Adrian Quist in the doubles match Monday, July 23, and Shields will meet McGrath and Wood will go against Crawford in the last two singles encounters next Tuesday.

## Fairviews and Diers Clash at Block Park

Tonight at the Block Park diamond the Fairviews will take on Diers' All Stars.

The Fairview manager says that his charges have been practicing all week and that he expects them to come out ahead in tonight's tilt.

There has been no announcement as to batteries, but it is thought that Jack Dodge will be on the mound for the All Stars with H. Wenzel catching. Kosolowski will probably work behind the plate for the Fairviews.

## CLAMBAKE, BALL GAME AND DANCE AT BUSHKILL INN

William Gademian, proprietor of the Bushkill inn at West Shokan, has announced a special program for Sunday, July 22, including a clam-bake, starting at 5 o'clock, as the main feature, following a double-header ball game. After the bake there will be a dance. The bake will be in charge of John Schussler. The event is open for the patronage of the public and a good time is promised all who attend.

## SPENCER STUDENTS EAT WATERMELON

A large summer enrollment of pupils attending Spencer's Business School enjoyed a delicious watermelon feed Wednesday afternoon in the Bookkeeping Department. A enjoyable hour was spent in whole some fun. Many social activities are being planned for the fall and winter terms. The faculty of Spencer's believe in interspersing work with play thereby promoting a school spirit of friendship which will result in lasting pleasant memories after the pupils have finished their course in this institution of learning.

Has Variety of Minerals  
Rutherford county, North Carolina, claims to have the largest variety of minerals of any county in the United States.

## Hercules Nine Wins 5-4 Tilt With S & K

Last evening the Hercules Nine started out with a rush and played the ball as if they meant it against the S & K nine. They took an early lead in the first frame by putting three runs across. They kept in the lead from there on. It was their first win in the second half of the Downtown Twilight League.

Lucifer Davis, on the mound for the bakers, went a little wild and was touched for eight hits, while Mower held the S & K to seven well scattered slouts.

In the sixth frame Bill Freeman hit a long homer which was the last S & K run to cross the plate. This evening at Hasbrouck Park the Rencios play the U. P. A. starting at 6:15.

## Annual Meeting of Kingston Post Friday

The annual meeting and election of officers of Kingston Post, American Legion, will be held in the Memorial building Friday evening, July 20. Delegates will also be elected to attend the Ulster County American Legion convention to be held in the rooms of Kingston Post on Tuesday evening, July 25. At the county meeting delegates to the state convention will be elected.

METACAHONTS  
Metacahonts, July 13—The Willing Workers meeting will be held at the home of Mrs. Lizette Bell on Wednesday, August 1, at 2 p. m. standard time.

Mr. and Mrs. Leroy Kelder called on Mr. and Mrs. Stanley Kelder and son, Sunday evening.

Miss Birdella Osterhoudt has employment at Abe Deskeys.

Mrs. Spencer Traxer is spending two weeks with her husband and son, Albert, at Connecticut.

Mr. and Mrs. Harry Osterhoudt called on Mr. and Mrs. Simon Osterhoudt Sunday evening.

Little Marie Kelder of Ardona, spent a few days last week with Mr. and Mrs. Leroy Kelder.

Mrs. Floyd Oakley of Accord, spent Wednesday helping her brother, Russell Miller.

Mrs. Simeon Osterhoudt spent Saturday afternoon with Mrs. Elizabeth and Miss Lillian Enderly of Whitfield.

Mrs. Mary Hendrickson called on Mrs. Chester Wood Tuesday afternoon.

Mr. and Mrs. Elijah Churchwell of Wawarsing, spent Sunday with Mr. and Mrs. Arthur Kelder and sons.

Wallace Mikaloms has returned to his work in New York city after spending a few weeks with his family in this place.

Miss Cornelia Osterhoudt is assisting Mrs. Phoebe Krum with her housework.

Mrs. Grant Schoonmaker and Mrs. Joseph Ebert and son Milford, spent Wednesday with Mrs. Edsel Osterhoudt.

Mrs. Baker and sister, Miss Edna Baker of Accord, called on Miss Delia Rider Tuesday afternoon.

Mr. and Mrs. Howard Todd and son, Judson, are spending a few days at their old home in this place. Harrison Ballard of Vega was in this place looking for cows. Mrs. Lillian Todd has opened her boarding house, Pleasant View Farm, for the season.

## Strikers Go Fishing And Forget the Issue Robbing Plane Victim

Bridgeport, N. J., July 19 (AP)—A pretty kettle of fish, the said, has just an end to the strike of workers at two plants of the Federal Fur and Combs Co.

After the 11 workers at the Bridgeport plant were called out yesterday, Herbert Smalley, treasurer of the company, started them on a fishing trip in the Delaware Bay.

"The men were so busy fishing in their 150 fish, including some wild pout, big bass, and shad, they didn't have time to remember they were on strike. Everybody returned to work today, satisfied with the same conditions as before."

The Millville plant of the same basket-weaving company also resumed full operation today but the Vineland plant remained closed. The factory there ceased operations Tuesday night when the strike appeared imminent.

Smalley contends the strike call at the Package Company plants is traceable to the same men held responsible for the Seabrook Farms strike recently.

To avert a threatened cannery strike at the height of the tomato harvesting season, Cumberland county farmers have appointed 12 men to confer with county authorities.

## Sky-Pilot Robie At Field Court

At the urgent request of many Sky-pilot Robie has returned to Kingston for another campaign in the big race. This time he is back on Field Court where eight years ago thousands attended the meetings.

Last night the meetings opened with a remarkable crowd and a service packed with all that folks enjoy. Mr. Robie played a unique medley of old gospel songs on the large piano accordion. Miss Ruth presided at the piano. A new chorus was introduced written, both music and words, by Mr. Robie: "I Am Walking With Jesus". This is the popular Theme Chorus for all his Victory meetings and many broadcasts. Over 50 times he has broadcast out of Binghamton during the past year.

Services are every night but Monday at 8 o'clock. Sundays at 2:45 and 8. Everyone and all groups are invited. Tonight he will preach on "The Cast-Off Camel-Skin."

## Osterhoudt Gets School Contract

The Board of Education met in special session Wednesday night to receive bids for laying of new maple floors in the 14 rooms of No. 8 school. Mrs. Snyder, who was appointed acting clerk, reported that two bids had been received, one from Peter C. Osterhoudt & Son for \$2,500 and one from T. J. Rifenbary & Son for \$2,925.

On motion of Trustee Walter the Osterhoudt bid, being the lowest, was accepted. Architect Gerard Betz was present and said that he considered the bids very reasonable for the laying of some 16,500 feet of flooring, including the furnishing of material.

President Beeres announced that contracts had been signed for installation of toilets at No. 1 school, for painting rooms at the high school and for the fence at No. 5 school.

## Shure's Shop Has Anniversary Sale

Shure's Children's Shop, 297 Wall street, is announcing attractive bargains at its first anniversary sale, which opened today. The sale, which is stated to be in appreciation of the patronage received during the store's first year, is store wide. For the next 10 days liberal reductions will be offered on all high grade lines of infants, children's, boys' and juniors' wear.

Lei an Old Decoration  
The lei is featured on every page of Hawaiian history; it is the symbol of the all-embracing hospitality of its people. Kings were leis of feathers and of rare shells at royal ceremonies.

## Financial and Commercial

New York, July 19.—The stock market was a quiet one today with only a few scattered transactions. The market was generally steady, with a few fluctuations in the price of certain stocks.

Several issues, due to special circumstances, edged into low price territory for the year to date and a few others, reflecting various developments, sold at bottom prices for 1934. Public participation was at a minimum, and professional investors notably cool. At the opening there was a moderate advance in waterways, but this was soon followed by a reaction, and the market closed in a state of uncertainty.

New tops were established by shares of U. S. Smelting, Phelps Morris, American Smelting and Refining, and American Smelting and Refining. The smelting and mining stocks, however, cancelled their advances and were off fractionally to around a point lower. United Aircraft was down more than a point to 100. Warner Bros. also showed a decline with a fractional decline. The railroads and utilities were about even. Losses of fractions to around a point or more were shown by American Smelting, Alaska Tunnel, Howe Sound, U. S. Steel, Du Pont, Johns-Manville, Case, Western Union, U. S. Rubber, First Preferred, General Motors and Chrysler. Corro D. Pasco dropped 2.

Quotations given by Parker, McElroy & Co., members, N. Y. Stock Exchange, 120 Broadway, New York city; branch office, 282 Wall street.

## Thieves Take \$300 In Store Robbery

New York, July 19.—A robbery of \$300 was committed today in a store in the city. The thieves took the money and fled. The store owner is trying to find the thieves.

Several issues, due to special circumstances, edged into low price territory for the year to date and a few others, reflecting various developments, sold at bottom prices for 1934. Public participation was at a minimum, and professional investors notably cool. At the opening there was a moderate advance in waterways, but this was soon followed by a reaction, and the market closed in a state of uncertainty.

New tops were established by shares of U. S. Smelting, Phelps Morris, American Smelting and Refining, and American Smelting and Refining. **Outright Egg "Steak"**  
An outbreak of egg "steak" has been reported for the first time in the history of the world. The outbreak is said to have occurred in a small town in the state of New York. The outbreak is said to have occurred in a small town in the state of New York. The outbreak is said to have occurred in a small town in the state of New York.

## Give Training to Jobless Teachers

New York, July 19.—One of the training centers for unemployed teachers in the city is now open. The center is providing training for teachers who are looking for work.

Several issues, due to special circumstances, edged into low price territory for the year to date and a few others, reflecting various developments, sold at bottom prices for 1934. Public participation was at a minimum, and professional investors notably cool. At the opening there was a moderate advance in waterways, but this was soon followed by a reaction, and the market closed in a state of uncertainty.

New tops were established by shares of U. S. Smelting, Phelps Morris, American Smelting and Refining, and American Smelting and Refining. The smelting and mining stocks, however, cancelled their advances and were off fractionally to around a point lower. United Aircraft was down more than a point to 100. Warner Bros. also showed a decline with a fractional decline. The railroads and utilities were about even. Losses of fractions to around a point or more were shown by American Smelting, Alaska Tunnel, Howe Sound, U. S. Steel, Du Pont, Johns-Manville, Case, Western Union, U. S. Rubber, First Preferred, General Motors and Chrysler. Corro D. Pasco dropped 2.

Quotations given by Parker, McElroy & Co., members, N. Y. Stock Exchange, 120 Broadway, New York city; branch office, 282 Wall street.

Quotations at 2 o'clock.

Highland, July 19.—The Misses Emily and Barbara Lent returned Wednesday from a ten-days' visit with their uncle and aunt, Mr. and Mrs. Richard Lent, at Farmington, L. I.

The Evening Reading Circle will hold a picnic on Tuesday at the Salvatore camp at Greenwood Lake. Cars will leave the church at 9:15 o'clock in the morning. Mrs. Bertram Cutting and Mrs. C. W. Rathgeb are the committee for the event.

Mrs. Carrie Ostrander is spending a week or more with her niece, Mrs. S. D. Farnham.

Alexandre T. Coelho of New York spent Wednesday as a guest at Lakewood.

Mrs. Leo J. Ladd of Hoosic Falls, is at the Elms caring for her mother, Mrs. Ellen Seager, who is ill there. Mr. Ladd has returned after staying for some time.

Dr. Helen MacLean Thompson left Tuesday for a vacation to be spent with relatives in Nova Scotia.

Mr. and Mrs. Gordon E. Wilcox and daughters Elizabeth and Anna are spending this week in the Wilcox camp at Watson Hollow.

Philip T. Schantz, superintendent of the Water company reports that the hydrants were all flushed and tested Monday night. He also says there is a fair supply of water on hand with the large reservoir full and the second one partly filled. The low pressure system is now used.

Mrs. Robert Cummings and sons are spending a week with her parents at Stanfordsville.

Mrs. Gerow Thomas of Clintondale, accompanied Mrs. William Waterbury and Mrs. Harry Coyer on a trip to New York on Monday.

A card party under the auspices of Court Nilan, C. D. of A will be held at the home of Mrs. Louis Gruner on July 24. This is for the benefit of St. Augustine's Church and Mrs. Anna Abrams is chairman.

Mr. and Mrs. William H. Maynard with Audrey and Billy are spending a week or more at Camp Suis-Un on the Walkkill. Mr. Maynard drives out and back daily.

**LYONSVILLE**

The Young People's Community Club will hold a party at Chester L. Roosa's garage, Friday, July 20. A plate supper, consisting of baked beans, potato salad, sandwiches, pickles, cheese cake and coffee will be served from 5 p. m. standard time, until all are served. Home-made ice cream and lemonade will be on sale also. A nominal sum will be charged. Music will be furnished for dancing. There will also be other attractions.

Fred Barley and family visited DeWitt's Lake and other points of interest Sunday afternoon.

Mr. and Mrs. Percy Barley and daughter, Melvina of Accord, called at the home of Jacob H. Barley and daughter, Tuesday evening.

Mr. and Mrs. John Davis and family of Acorn Hill called at the home of Roy Miller and family on Monday evening.

Mrs. Edward Dietrich and children are spending the season at their summer home in this place.

The Young People's Community Club has purchased a piano from E. Winter's Sons of Kingston.

**Railway Station Wrecked.**

Vienna, July 19 (A).—Three hours after the expiration of Chancellor Dollfus' five days of grace for the surrender of explosives, a heavy explosion today wrecked the upper station of the lofty Nordkette cable railway, connecting Innsbruck with snowcapped peaks.

**Lawrence Bernard Missing.**

On the police records today was a report that Lawrence Bernard of 321 Albany avenue is missing from his home. He is 20 years of age, has gray hair, is 5 feet 10 inches tall and weighs about 160 pounds. When last seen he was wearing a dark suit and brown hat.

## Mack Names His Four Assistants

Albany, N. Y., July 19 (AP)—A staff of four assistants today was helping John E. Mack of Kingston, N. Y., general counsel, prepare for the opening text work of the joint legislative committee investigating the electric light and power companies.

Mr. Mack announced the staff yesterday after he said he would meet with them next Monday to map their course.

He named the following attorneys:

David P. Lee of Kingston, formerly their legislative leader; Charles L. McCann of Poughkeepsie, a Republican; Major Melvin L. Krueger, New York Representative; and George H. Condo, Jr., New York Democrat.

Governor Lehman said he would

## Rev. J. P. Hearon at Stony Hollow Church

The Rev. James P. Hearon, formerly of Our Lady of Mercy Church, Fordham, and a chaplain in the World War, has been assigned as acting pastor at St. John's church, Stony Hollow, during the time the Rev. Peter Spellman is recuperating. This Saturday evening a dance will be given at the parish house and the older members of the parish who now live in Kingston are asked to be acquainted with the acting pastor, the Rev. Father Hearon. Dancing will commence at 8 o'clock and the public is invited. Refreshments will be served. Music will be supplied by Pete Bolco's orchestra.

## GREAT HOTELS AND HOSPITALS

### GET ALL THEY CAN FOR THEIR MONEY

The Stevens Hotel  
 The world's largest hotel is now being equipped with Spring-Air mattresses throughout.

The New York Hospital  
 (Cornell University Medical Center) is one of more than a thousand great hospitals which use Spring-Air.

- 1—Karr spring-construction (all steel, yet flexible as rubber).
- 2—Used and endorsed by most of America's great hospitals and sanitariums — more than all other makes of mattresses combined on the best hospital beds.
- 3—Unsurpassed comfort.
- 4—Tailoring by the Master Bedding Makers of America.
- 5—Available in lovely exclusive damasks and tickings. The only innerspring mattress made in two separate parts.
- 6—Spring-Air Sleep Cushions are made easy to handle, even for a child! And they cost no more than the ordinary kind.

Can anything mean more to your health than Spring-Air? Compare it with the cost of your food. See it, feel it, LIFT it. Spring-Air is a sensation at A Century of Progress Exposition. But see it right in town. We invite you — Cordially.

Everything that Science really knows about making cigarettes is used in making **CHESTERFIELDS**

LIGGETT & MYERS TOBACCO CO.

the cigarette that's Milder  
 the cigarette that TASTES BETTER

**NO** PRODUCT YOU CAN BUY is made under more sanitary conditions than you will find in the modern Chesterfield factories.

Everything used in making Chesterfield Cigarettes is scientifically tested for cleanliness and purity—and so ingenious is the machinery that the cigarette is hardly ever touched by hand.

EVEN THE AIR IN THE CHESTERFIELD FACTORIES IS CHANGED EVERY 4 1/2 MINUTES

Every time you start to smoke a Chesterfield, remember this statement by a well-known physician:

"I have been something of a student of Cigarettes and it is my belief that they offer the mildest and purest form in which tobacco is used."
